CHART 1

Gross consumption of natural gas by OECD region

Total OECD indigenous production of natural gas increased by 8.7% in September 2018 compared to September 2017. This increase was mainly driven by the OECD Americas (+11.0% y-o-y¹), where production in the United States rose by 13.8% year-on-year, and OECD Asia Oceania (+13.9% y-o-y) led by Australia (+16.9% y-o-y). On the other hand, OECD Europe saw falls in indigenous production on a year-on-year basis (-5.1%) due to decreases in Norway (-5.0% y-o-y), the Netherlands (-7.6% y-o-y) and the UK (-4.0% y-o-y). Overall, total OECD indigenous production of natural gas grew by 7.6% in the first three quarters of 2018 compared to the same period of 2017.

Total OECD imports (entries)² of natural gas grew by 6.1% in September 2018 compared to September 2017, driven by increases in both OECD Asia Oceania (+18.8% y-o-y) and OECD Europe (+6.0% y-o-y) where the growth was led by Korea (+46.3% y-o-y) and Germany (+20.3%) respectively. The OECD Americas, however, experienced a decline of 8.3% year-on-year, following a decrease in natural gas entries in both Mexico (-31.7% y-o-y) and the USA (-6.0% y-o-y).

Total OECD exports (exits)² of natural gas grew by 12.4% in September 2018 compared to September 2017. Growth was observed across all OECD regions, influenced by exports growth in OECD Asia Oceania (+43.5% y-o-y) and the OECD Americas (+7.1% y-o-y).

Total OECD gross consumption of natural gas increased by 2.1% in September 2018 on a year-on-year basis, driven by growth in the OECD Americas (+7.6% y-o-y), where consumption in the United States grew by 12.2% y-o-y. Decreases in consumption were observed in OECD Europe (-7.8% y-o-y) and OECD Asia Oceania (-0.6% y-o-y). Overall, total OECD consumption of natural gas grew by 4.7% in the first three quarters of 2018 compared to the same period of 2017.

1. Year-on-year (y-o-y) change over corresponding month of previous year.
2. Transit volumes are included. Trade amounts include intra-regional trade.

CHART 2

Indigenous production of natural gas by OECD region

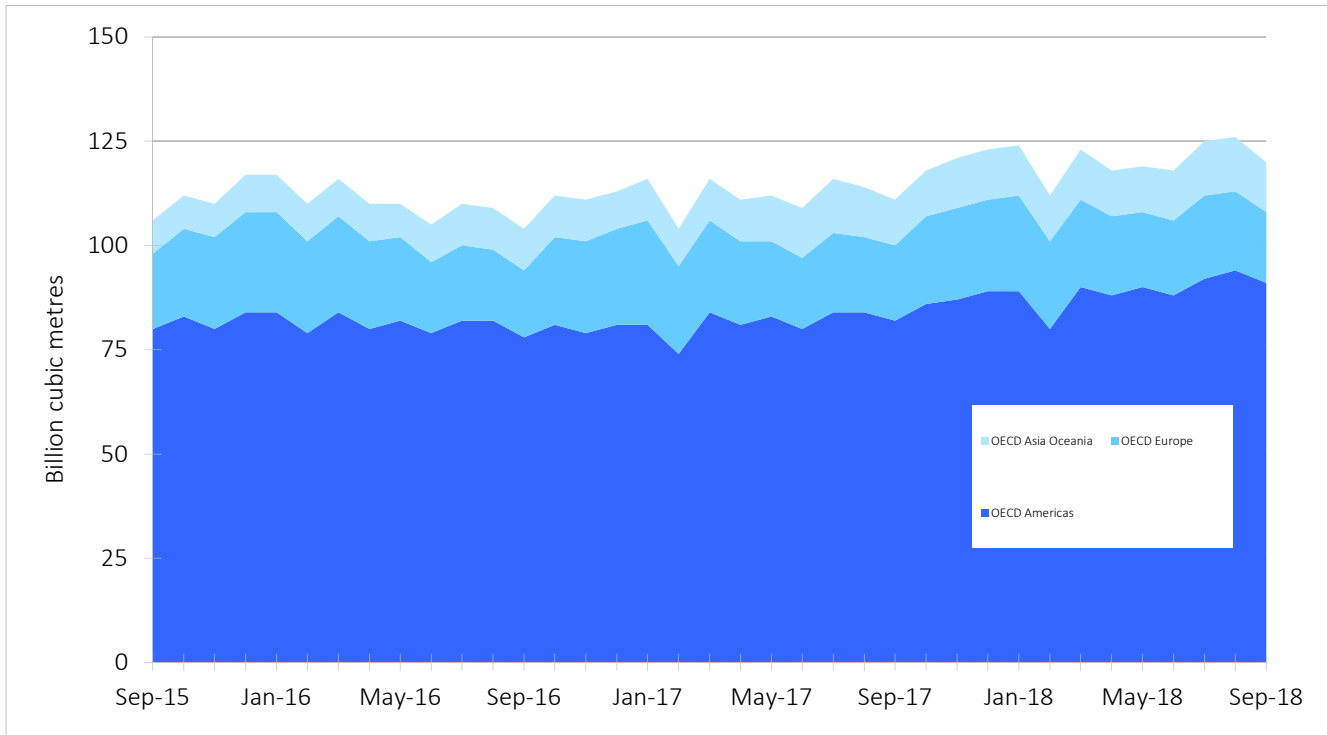

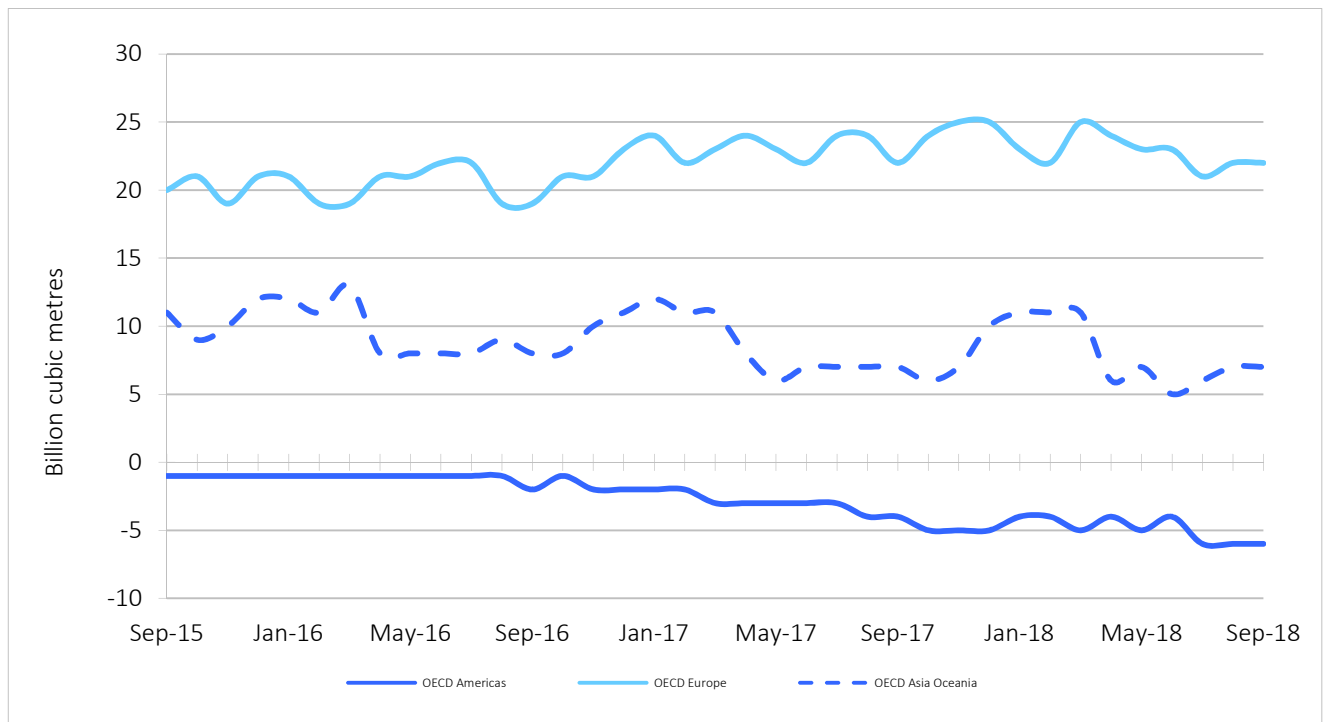

CHART 3

Net trade of natural gas by OECD region¹

1. Trade amounts include intra-regional trade.

NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:
<http://www.iea.org/t&c/termsandconditions/>

1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Israel January 2010 to September 2018

2) COUNTRY NOTES

A General Note Starting with January 2011 data, the Imports and Exports no longer represent ultimate origins and destinations but are replaced by Entries and Exits corresponding the amounts that physically crossed the national boundaries of the country.

Australia The breakdown of export destinations is estimated by the IEA on the basis of OECD imports of natural gas from Australia.

Austria Most recent data are the best estimates from the Austrian national administration, based on available preliminary data. Data are usually finalised within three months following the first publication.

Belgium Most recent data on origins of imports and final destinations of exports of LNG are the best estimates from the Belgian Administration based on available preliminary data.

Canada Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.

Iceland There is no natural gas data for Iceland, as there is neither production nor consumption.

Ireland There is a break in stocks between December 2016 and January 2017, caused by withdrawal of cushion gas from storage facilities due to the decommissioning of operations. As of May 2017 there is no gas stored in Ireland.

Israel The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law. Information is based on data published by the Ministry of Energy and Water Resources as well as the Central

Korea Following a change in reporting methodology, starting from January 2015 gross inland deliveries (observed) of

Mexico Observed gross inland deliveries of natural gas from January 2013 onwards are estimated.

United Kingdom Beginning with January 2016, exits to the Isle of Man are reported under Non-Specified/Other. Prior to this date, exits to the Isle of Man were included in exits to Ireland.
