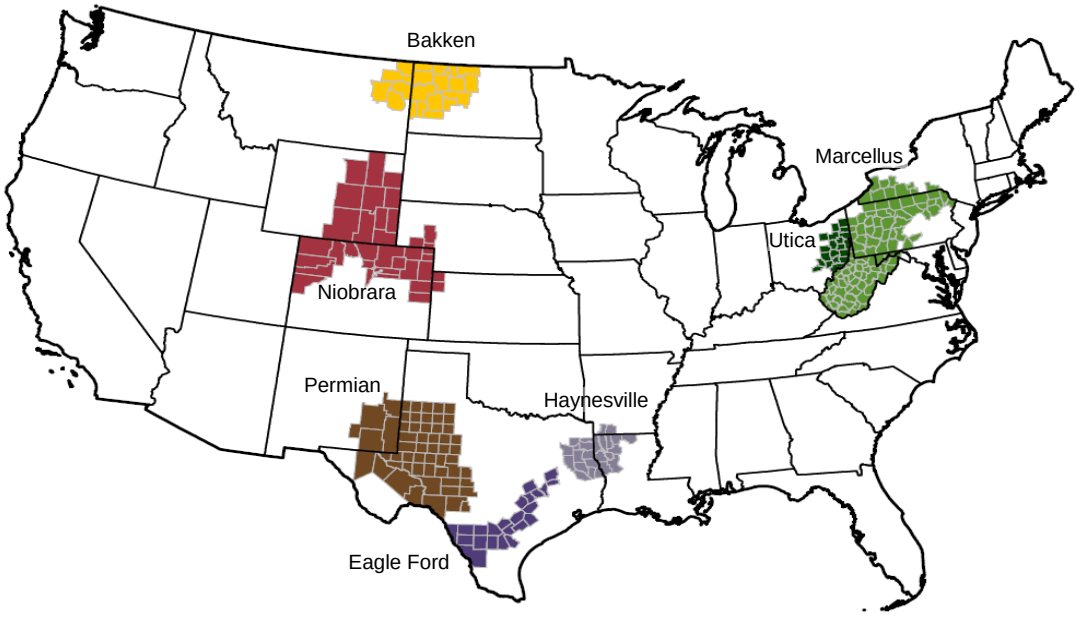
May 2017

Drilling Productivity Report

For key tight oil and shale gas regions



The seven regions analyzed in this report accounted for 92% of domestic oil production growth and all domestic natural gas production growth during 2011-14.

Contents

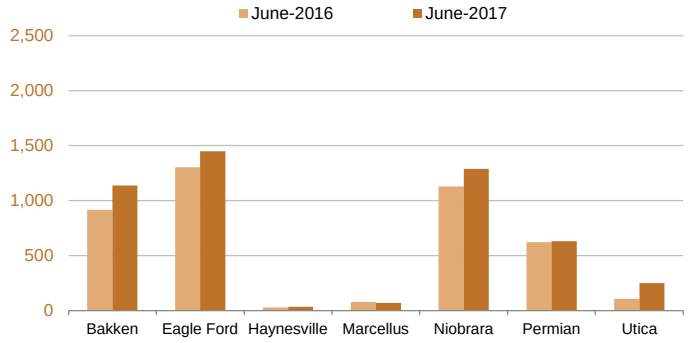
Year-over-year summary

Drilling Productivity Report

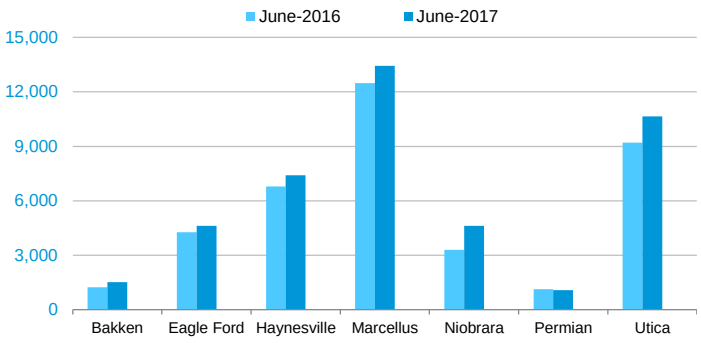
May 2017

drilling data through April
projected production through June

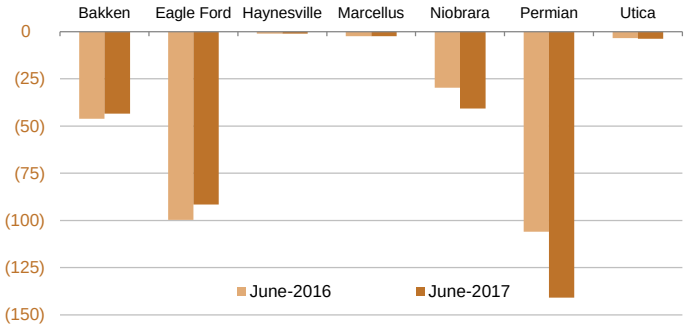
New-well oil production per rig
barrels/day



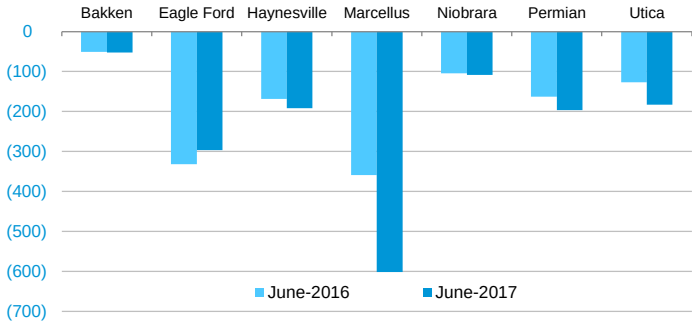
New-well gas production per rig
thousand cubic feet/day



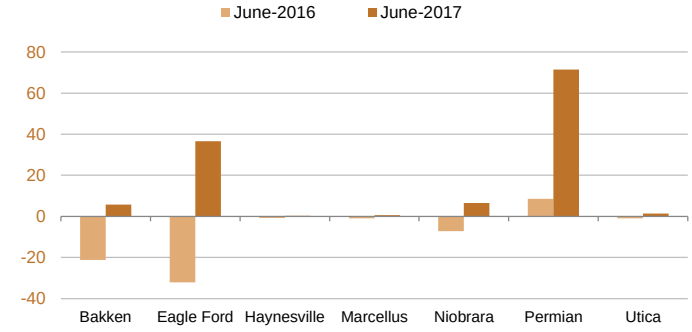
Legacy oil production change
thousand barrels/day



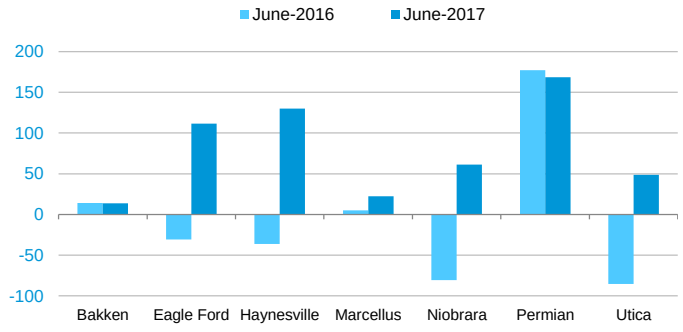
Legacy gas production change
million cubic feet/day



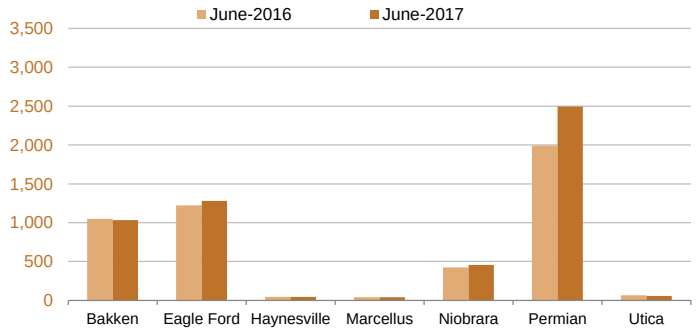
Indicated monthly change in oil production (Jun vs. May)
thousand barrels/day



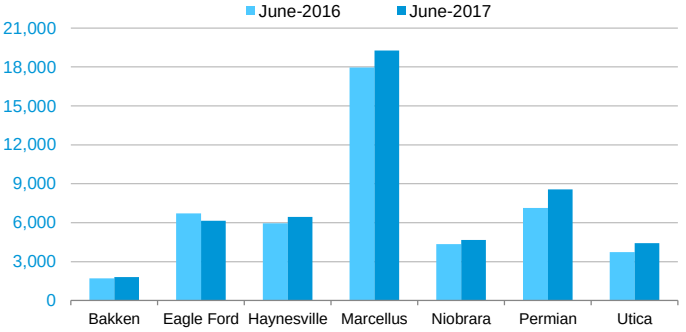
Indicated monthly change in gas production (Jun vs. May)
million cubic feet/day



Oil production
thousand barrels/day



Natural gas production
million cubic feet/day



Bakken Region
Drilling Productivity Report

May 2017

drilling data through April
projected production through June

Oil +8
barrels/day
month over month

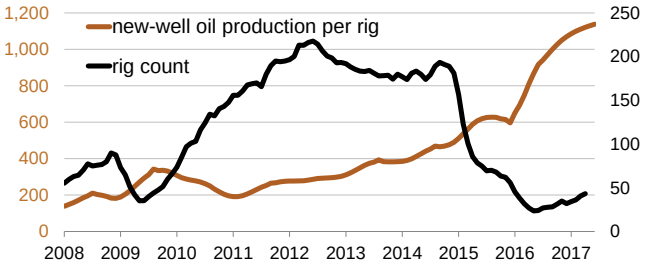
1,138 *June*
1,130 *May*
barrels/day

Monthly additions from one average rig

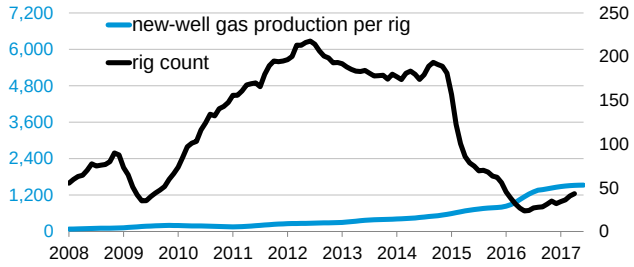
June **1,528**
May **1,524**
thousand cubic feet/day

Gas +4
thousand cubic feet/day
month over month

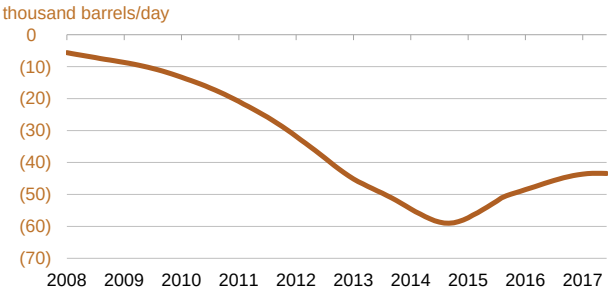
Bakken Region
New-well oil production per rig



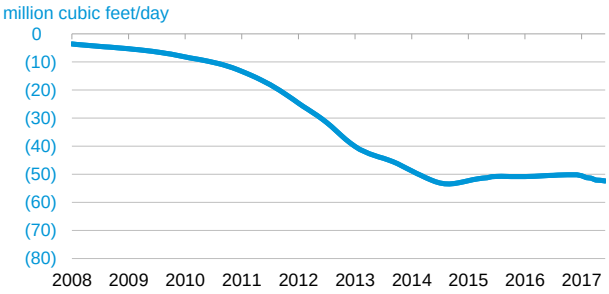
Bakken Region
New-well gas production per rig



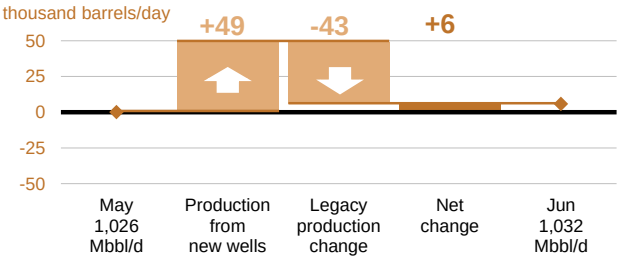
Bakken Region
Legacy oil production change



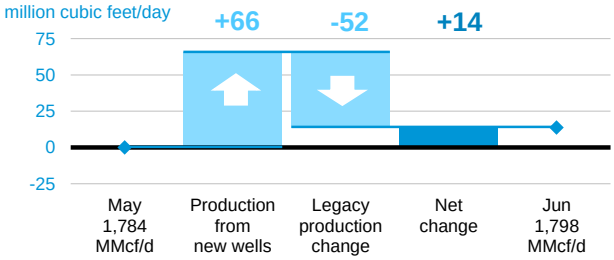
Bakken Region
Legacy gas production change



Bakken Region
Indicated change in oil production (Jun vs. May)

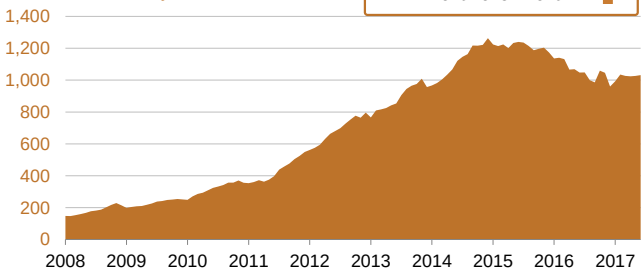


Bakken Region
Indicated change in natural gas production (Jun vs. May)



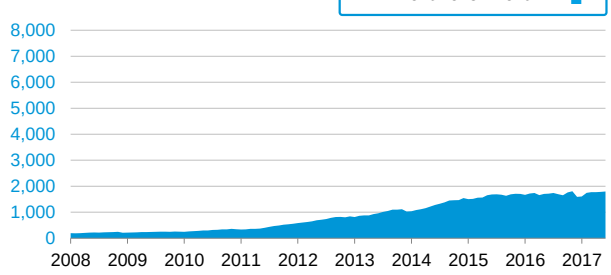
Bakken Region
Oil production

Oil +6
thousand barrels/day
month over month



Bakken Region
Natural gas production

Gas +14
million cubic feet/day
month over month



Eagle Ford Region

Drilling Productivity Report

May 2017

drilling data through April
projected production through June

Oil
0
barrels/day
month over month

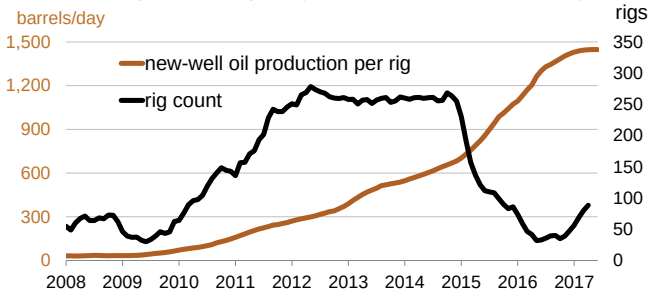
1,448 *June*
1,448 *May*
barrels/day

Monthly additions from one average rig

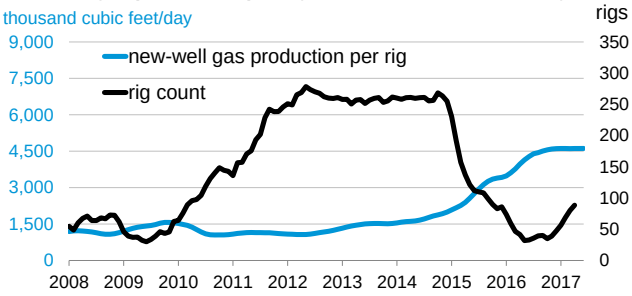
June **4,615**
May **4,611**
thousand cubic feet/day

Gas
+4
thousand cubic feet/day
month over month

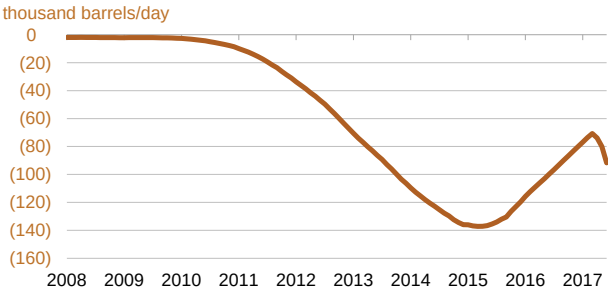
Eagle Ford Region
New-well oil production per rig



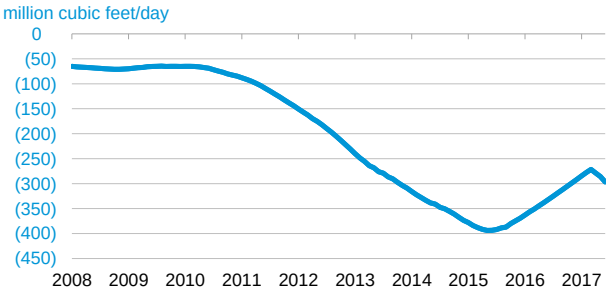
Eagle Ford Region
New-well gas production per rig



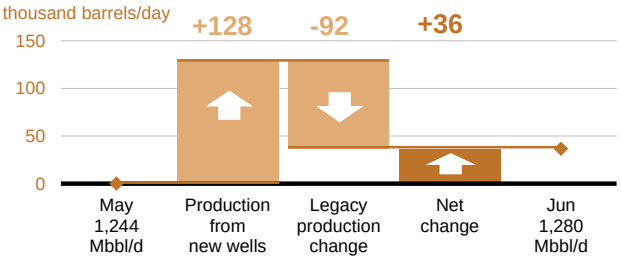
Eagle Ford Region
Legacy oil production change



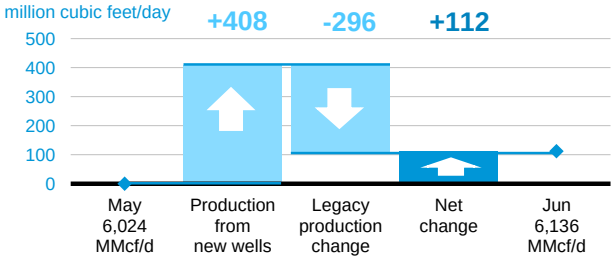
Eagle Ford Region
Legacy gas production change



Eagle Ford Region
Indicated change in oil production (Jun vs. May)

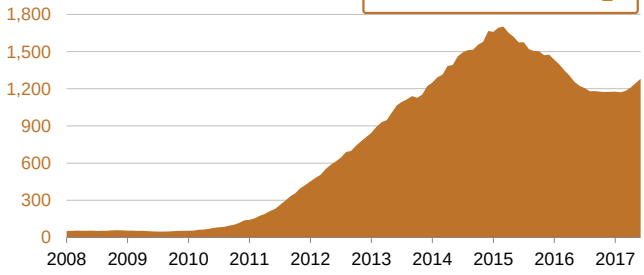


Eagle Ford Region
Indicated change in natural gas production (Jun vs. May)



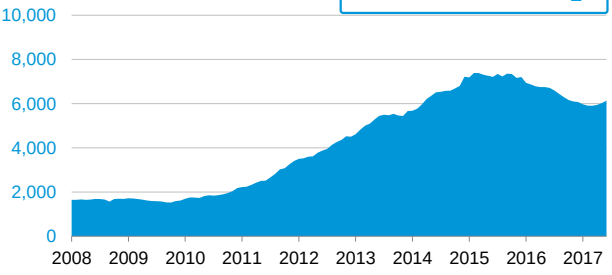
Eagle Ford Region
Oil production

Oil +36
thousand barrels/day
month over month



Eagle Ford Region
Natural gas production

Gas +112
million cubic feet/day
month over month



Haynesville Region

Drilling Productivity Report

May 2017

drilling data through April
projected production through June

Oil 0
barrels/day
month over month

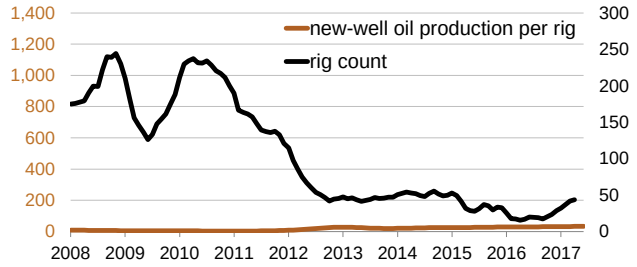
33 *June*
33 *May*
barrels/day

Monthly additions from one average rig

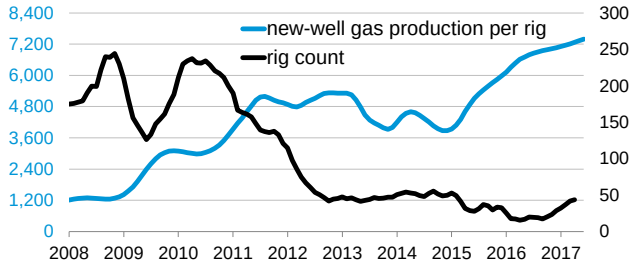
June **7,398**
May **7,332**
thousand cubic feet/day

Gas +66
thousand cubic feet/day
month over month

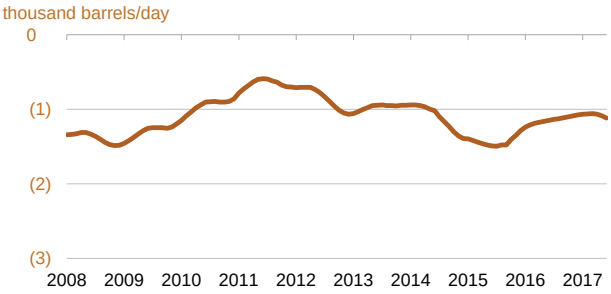
Haynesville Region
New-well oil production per rig



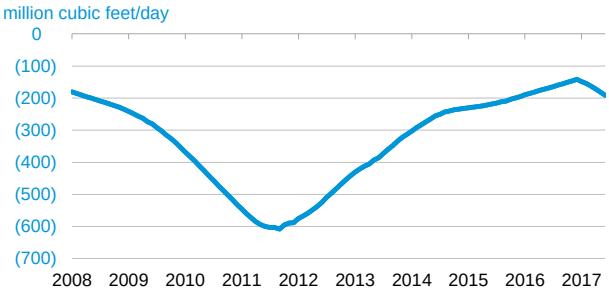
Haynesville Region
New-well gas production per rig



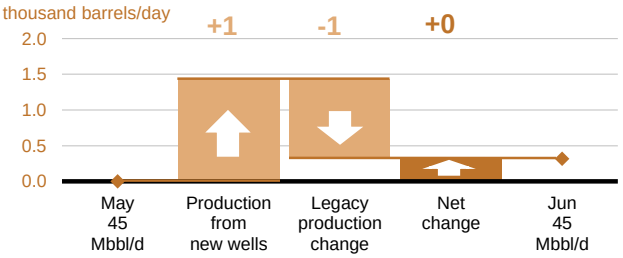
Haynesville Region
Legacy oil production change



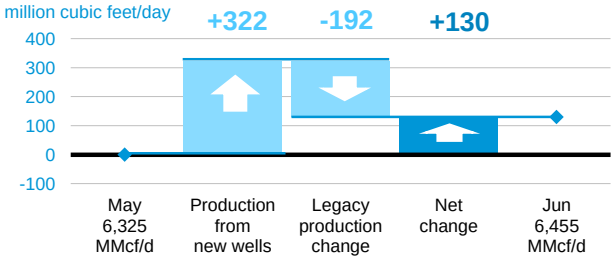
Haynesville Region
Legacy gas production change



Haynesville Region
Indicated change in oil production (Jun vs. May)

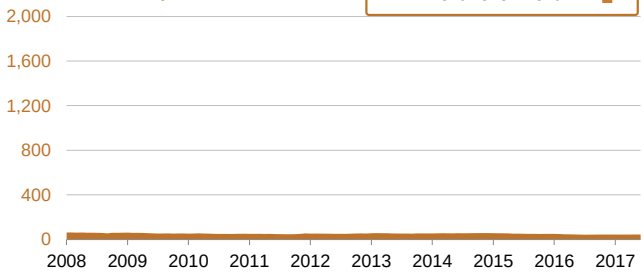


Haynesville Region
Indicated change in natural gas production (Jun vs. May)



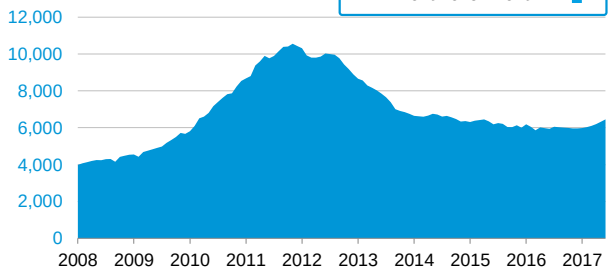
Haynesville Region
Oil production

Oil +0
thousand barrels/day
month over month



Haynesville Region
Natural gas production

Gas +130
million cubic feet/day
month over month



Marcellus Region
Drilling Productivity Report

May 2017

drilling data through April
projected production through June

Oil
0
barrels/day
month over month

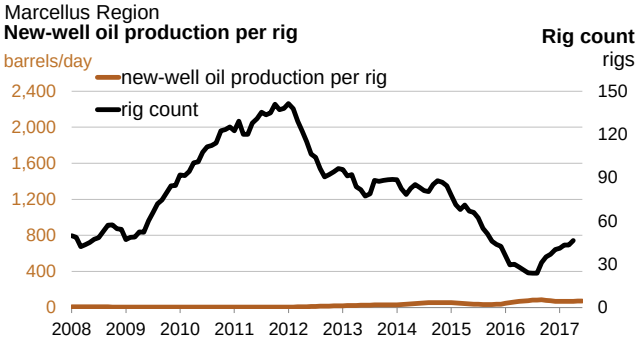
70 *June*
70 *May*
barrels/day

Monthly additions from one average rig

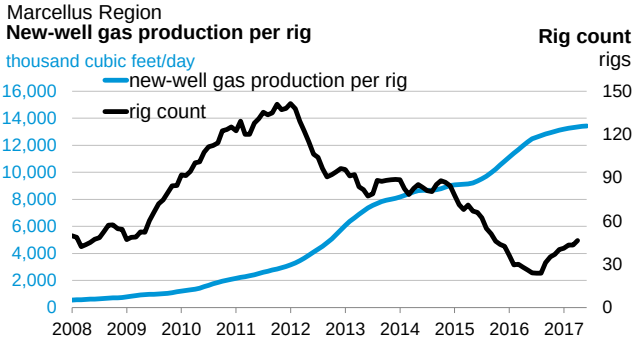
June **13,427**
May **13,387**
thousand cubic feet/day

Gas
+40
thousand cubic feet/day
month over month

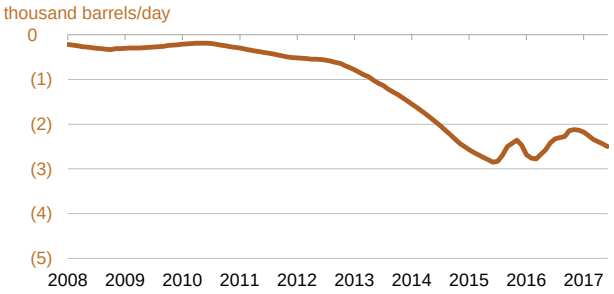
Marcellus Region
New-well oil production per rig



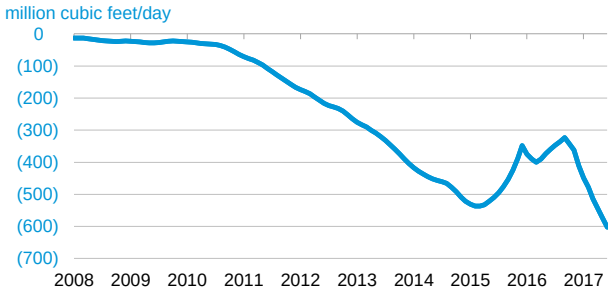
Marcellus Region
New-well gas production per rig



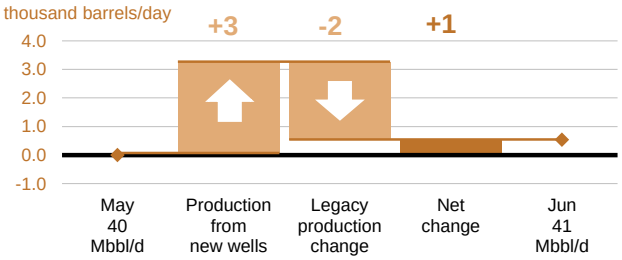
Marcellus Region
Legacy oil production change



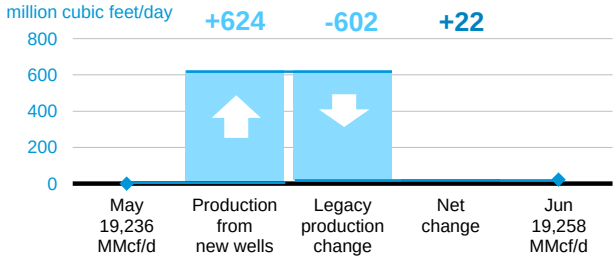
Marcellus Region
Legacy gas production change



Marcellus Region
Indicated change in oil production (Jun vs. May)

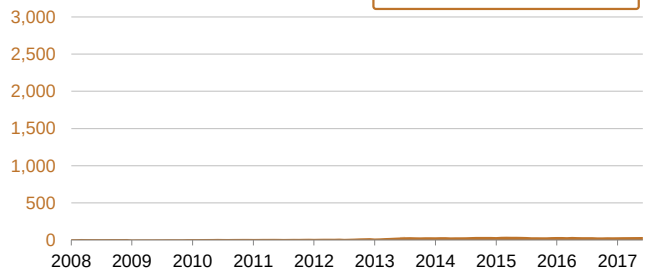


Marcellus Region
Indicated change in natural gas production (Jun vs. May)



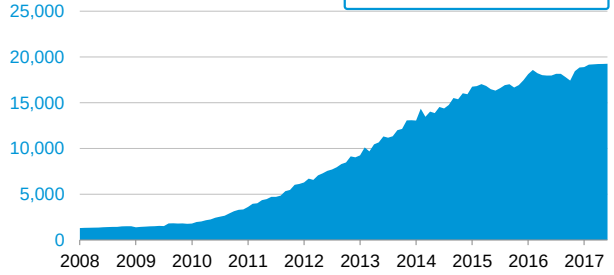
Marcellus Region
Oil production

Oil +1
thousand barrels/day
month over month



Marcellus Region
Natural gas production

Gas +22
million cubic feet/day
month over month



Niobrara Region
Drilling Productivity Report

May 2017

drilling data through April
projected production through June

Oil 0
barrels/day
month over month

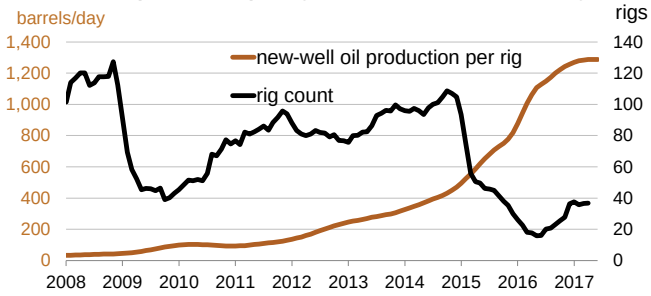
1,288 *June*
1,288 *May*
barrels/day

Monthly additions from one average rig

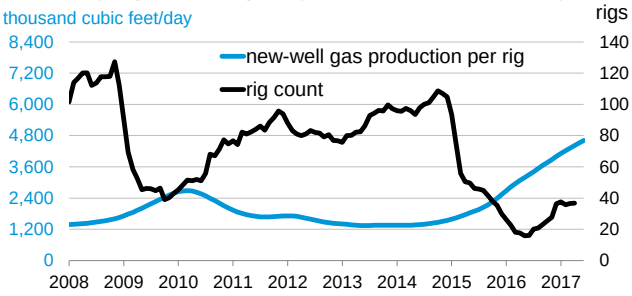
June **4,621**
May **4,520**
thousand cubic feet/day

Gas +101
thousand cubic feet/day
month over month

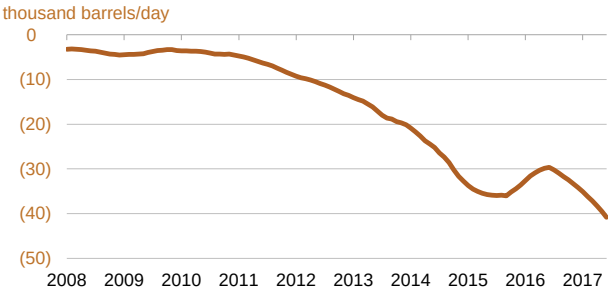
Niobrara Region
New-well oil production per rig



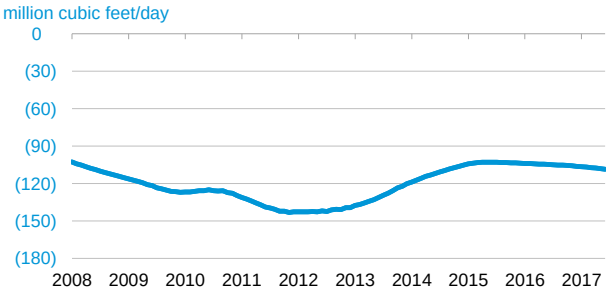
Niobrara Region
New-well gas production per rig



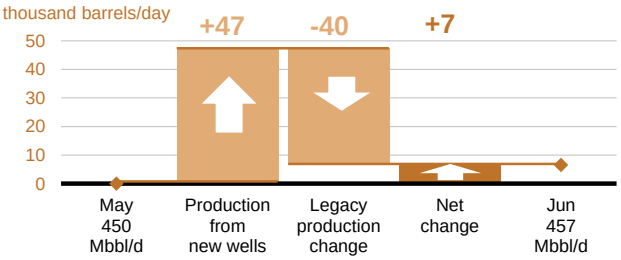
Niobrara Region
Legacy oil production change



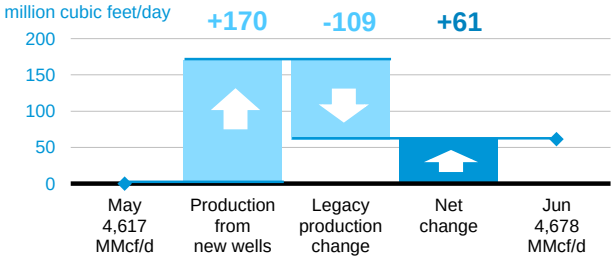
Niobrara Region
Legacy gas production change



Niobrara Region
Indicated change in oil production (Jun vs. May)

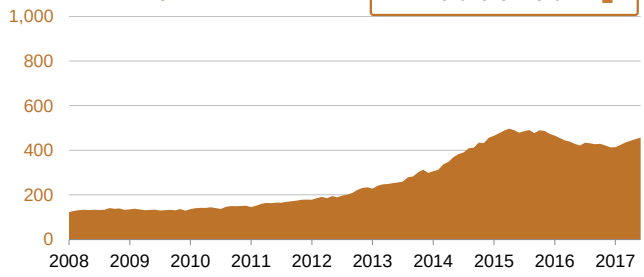


Niobrara Region
Indicated change in natural gas production (Jun vs. May)



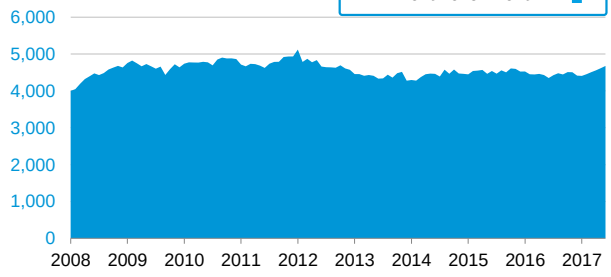
Niobrara Region
Oil production

Oil +7
thousand barrels/day
month over month



Niobrara Region
Natural gas production

Gas +61
million cubic feet/day
month over month



Permian Region
Drilling Productivity Report

May 2017

drilling data through April
projected production through June

Oil -10 barrels/day month over month

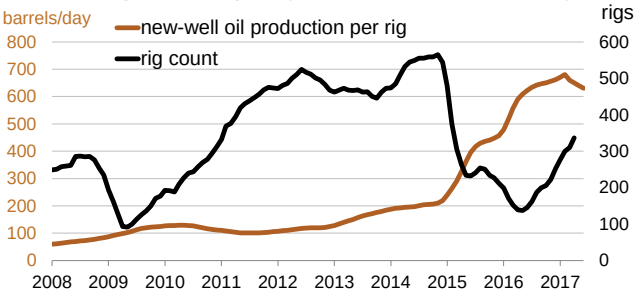
630 *June*
640 *May*
barrels/day

Monthly additions from one average rig

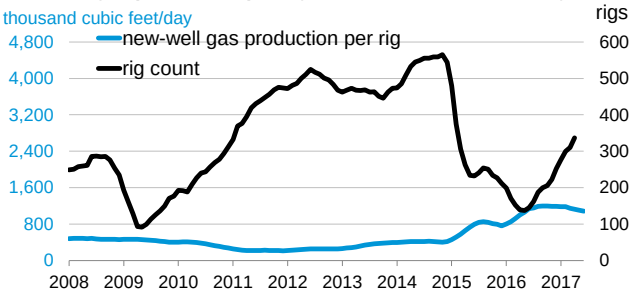
June **1,084**
May **1,104**
thousand cubic feet/day

Gas -20 thousand cubic feet/day month over month

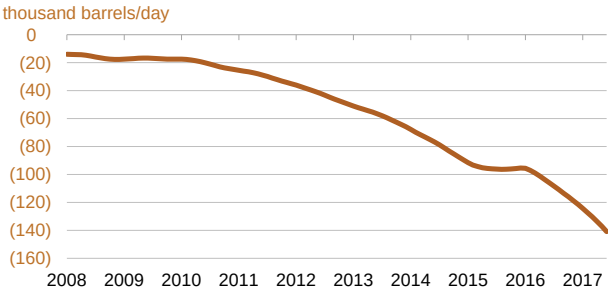
Permian Region
New-well oil production per rig



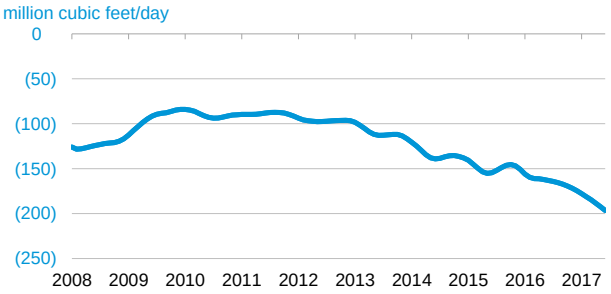
Permian Region
New-well gas production per rig



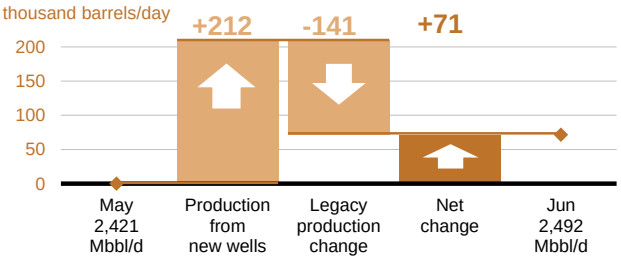
Permian Region
Legacy oil production change



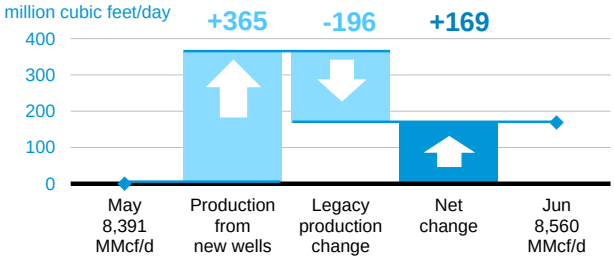
Permian Region
Legacy gas production change



Permian Region
Indicated change in oil production (Jun vs. May)

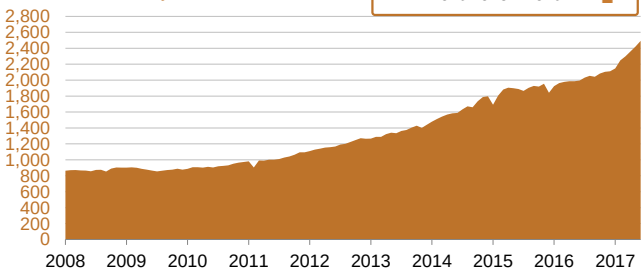


Permian Region
Indicated change in natural gas production (Jun vs. May)



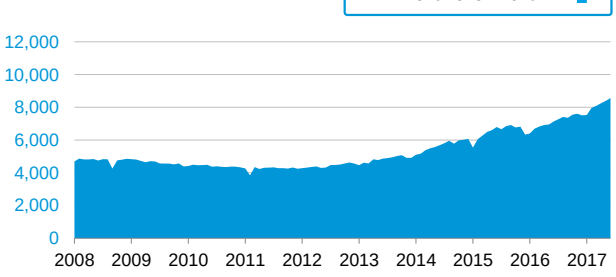
Permian Region
Oil production

Oil +71 thousand barrels/day month over month



Permian Region
Natural gas production

Gas +169 million cubic feet/day month over month



Utica Region
Drilling Productivity Report

May 2017

drilling data through April
projected production through June

Oil +16 barrels/day month over month

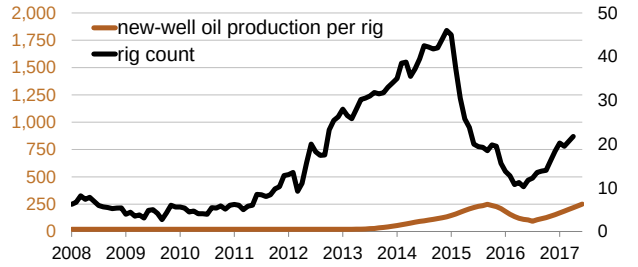
250 *June*
234 *May*
barrels/day

Monthly additions from one average rig

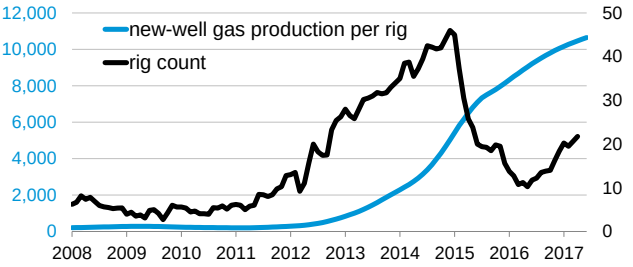
June **10,648**
May **10,559**
thousand cubic feet/day

Gas +89 thousand cubic feet/day month over month

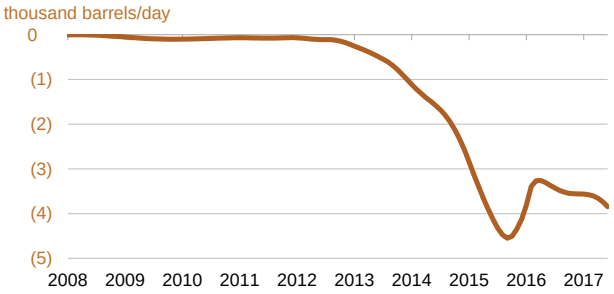
Utica Region
New-well oil production per rig



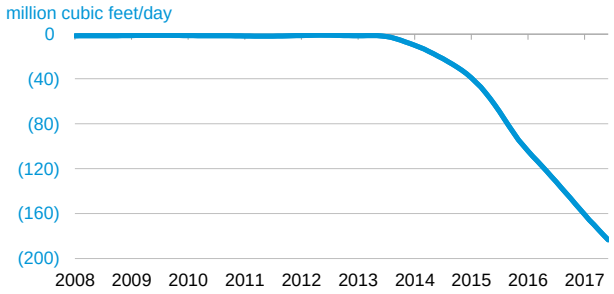
Utica Region
New-well gas production per rig



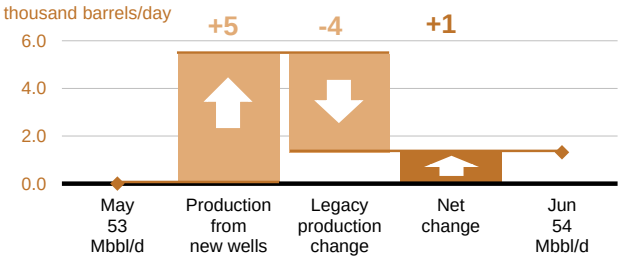
Utica Region
Legacy oil production change



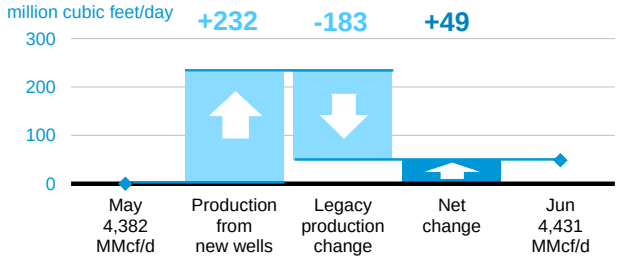
Utica Region
Legacy gas production change



Utica Region
Indicated change in oil production (Jun vs. May)

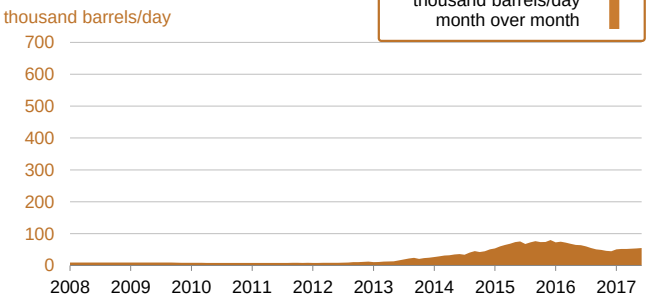


Utica Region
Indicated change in natural gas production (Jun vs. May)



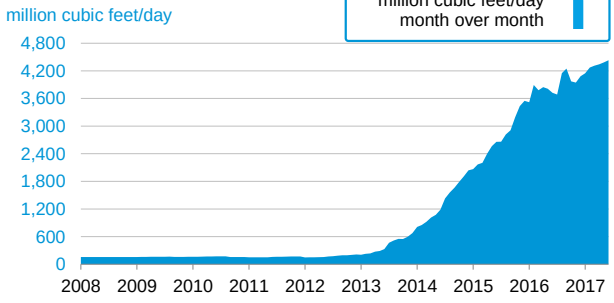
Utica Region
Oil production

Oil +1 thousand barrels/day month over month



Utica Region
Natural gas production

Gas +49 million cubic feet/day month over month



The Drilling Productivity Report uses recent data on the total number of drilling rigs in operation along with estimates of drilling productivity and estimated changes in production from existing oil and natural gas wells to provide estimated changes in oil[1] and natural gas[2] production for seven key regions. EIA's approach does not distinguish between oil-directed rigs and gas-directed rigs because once a well is completed it may produce both oil and gas; more than half of the wells do that.

Monthly additions from one average rig
Monthly additions from one average rig represent EIA's estimate of an average rig's[3] contribution to production of oil and natural gas from new wells.[4] The estimation of new-well production per rig uses several months of recent historical data on total production from new wells for each field divided by the region's monthly rig count, lagged by two months.[5] Current- and next-month values are listed on the top header. The month-over-month change is listed alongside, with +/- signs and color-coded arrows to highlight the growth or decline in oil (brown) or natural gas (blue).

New-well oil/gas production per rig
Charts present historical estimated monthly additions from one average rig coupled with the number of total drilling rigs as reported by Baker Hughes.

Legacy oil and natural gas production change
Charts present EIA's estimates of total oil and gas production changes from all the wells other than the new wells. The trend is dominated by the well depletion rates, but other circumstances can influence the direction of the change. For example, well freeze-offs or hurricanes can cause production to significantly decline in any given month, resulting in a production increase the next month when production simply returns to normal levels.

Projected change in monthly oil/gas production
Charts present the combined effects of new-well production and changes to legacy production. Total new-well production is offset by the anticipated change in legacy production to derive the net change in production. The estimated change in production does not reflect external circumstances that can affect the actual rates, such as infrastructure constraints, bad weather, or shut-ins based on environmental or economic issues.

Oil/gas production
Charts present all oil and natural gas production from both new and legacy wells since 2007. This production is based on all wells reported to the state oil and gas agencies. Where state data are not immediately available, EIA estimates the production based on estimated changes in new-well oil/gas production and the corresponding legacy change.

Footnotes:
1. Oil production represents both crude and condensate production from all formations in the region. Production is not limited to tight formations. The regions are defined by all selected counties, which include areas outside of tight oil formations.
2. Gas production represents gross (before processing) gas production from all formations in the region. Production is not limited to shale formations. The regions are defined by all selected counties, which include areas outside of shale formations.
3. The monthly average rig count used in this report is calculated from weekly data on total oil and gas rigs reported by Baker Hughes.
4. A new well is defined as one that began producing for the first time in the previous month. Each well belongs to the new-well category for only one month. Reworked and recompleted wells are excluded from the calculation.
5. Rig count data lag production data because EIA has observed that the best predictor of the number of new wells beginning production in a given month is the count of rigs in operation two months earlier.

The data used in the preparation of this report come from the following sources. EIA is solely responsible for the analysis, calculations, and conclusions.

Drilling Info (http://www.drillinginfo.com) Source of production, permit, and spud data for counties associated with this report. Source of real-time rig location to estimate new wells spudded and completed throughout the United States.

Baker Hughes (http://www.bakerhughes.com) Source of rig and well counts by county, state, and basin.

North Dakota Oil and Gas Division (https://www.dmr.nd.gov/oilgas) Source of well production, permit, and completion data in the counties associated with this report in North Dakota

Railroad Commission of Texas (http://www.rrc.state.tx.us) Source of well production, permit, and completion data in the counties associated with this report in Texas

Pennsylvania Department of Environmental Protection (https://www.paoilandgasreporting.state.pa.us/publicreports/Modules/Welcome/Welcome.aspx) Source of well production, permit, and completion data in the counties associated with this report in Pennsylvania

West Virginia Department of Environmental Protection (http://www.dep.wv.gov/oil-and-gas/Pages/default.aspx) Source of well production, permit, and completion data in the counties associated with this report in West Virginia

Colorado Oil and Gas Conservation Commission (http://cogcc.state.co.us) Source of well production, permit, and completion data in the counties associated with this report in Colorado

Wyoming Oil and Conservation Commission (http://wogcc.state.wy.us) Source of well production, permit, and completion data in the counties associated with this report in Wyoming

Louisiana Department of Natural Resources (http://dnr.louisiana.gov) Source of well production, permit, and completion data in the counties associated with this report in Louisiana

Ohio Department of Natural Resources (http://oilandgas.ohiodnr.gov) Source of well production, permit, and completion data in the counties associated with this report in Ohio
