CHART 1

Indigenous production of crude oil, NGL and feedstocks by OECD Region

Total OECD production of crude oil, NGL and refinery feedstocks grew by 7.6% in April 2019 compared to the same month last year. The OECD Americas led this growth with a 9.4% year-on-year¹ increase, due to higher production levels in the United States (+15.6% y-o-y). Production also increased in OECD Asia Oceania by 22.7%, where Australia experienced 26.4% y-o-y growth. On the contrary, production in OECD Europe fell by 5.3% year-on-year in April 2019, reflecting a decrease observed in Norwegian production which decreased by 8.5% y-o-y due to technical problems in some fields. As a whole, total OECD production grew by 7.2% on a year-to-date basis².

Total OECD refinery gross output of total products decreased slightly (-0.8% y-o-y) in April 2019 compared to April 2018. The year-on-year fall was led by the OECD Americas (-2.8% y-o-y), and could not be offset by the higher outputs in OECD Asia Oceania (+2.1% y-o-y) and OECD Europe (+0.7% y-o-y). The largest drop was observed for residual fuel oil (-13.1% y-o-y), followed by total gasoline (-3.0% y-o-y).

Total OECD net deliveries of total products remained largely unchanged in April 2019 compared to April 2018 (+0.4% y-o-y), and showed a moderate decrease on a year-to-date basis (-1.0% y-t-d). The growth was led by OECD Americas (+1.2% y-o-y), while OECD Asia Oceania and OECD Europe remained fairly stable on a year-on-year basis. From a products perspective, the increase in the deliveries of total kerosene (+7.4% y-o-y) was balanced by decreases in naphtha (-12.9% y-o-y).

Total OECD oil stock levels on national territory grew by 2354 kt in April 2019 compared to the closing stock levels in March 2019 and stood at 535 million metric tons. Despite a stock draw of total products (-832 kt), large builds of crude, NGL and feedstocks (+3186 kt) resulted in overall stock build, driven by the OECD Americas (+2226 kt).

1 Year-on-year (y-o-y) change over corresponding month of previous year.

2 Year-to-date (y-t-d) change over corresponding period (beginning of year to current month) of previous year.

OECD oil deliveries by main product group

NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:
<http://www.iea.org/t&c/termsandconditions/>

1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Israel January 2010 to April 2019

2) COUNTRY NOTES

- Australia** There is a break in series between December 2017 and January 2018 due to a change in reporting methods, which involves new mandatory reporting for refineries and companies in the oil sector.
- Austria** Most recent data are the best estimates from the Austrian national administration, based on available preliminary data. Data are usually finalised within three months following the first publication.
- Canada** There is a break in series between December 2018 and January 2019 as the Canadian Administration launched a new Monthly Refined Petroleum Products survey in the beginning of 2019. The survey includes greater coverage of all products. Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.
- As of January 2019, Canadian data includes outputs of secondary products from bitumen upgraders. These are reported under "from other sources" under other hydrocarbons, and in "primary product receipts" for refinery gas, gas/diesel oil and petroleum coke. The Canadian Administration includes condensates and pentanes plus under crude oil.
- France** Following a methodological change in the French statistics coverage, data from January 2017 includes the overseas departments (French Guiana, Guadeloupe, Martinique, Mayotte and Reunion).
- Israel** Information is based on data published by the Ministry of Energy and Water Resources as well as the Central Bureau of Statistics. The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law. The stocks level information is not available at this time. The trade breakdown information is not available at this time. Petroleum coke is included by Israeli Administration in the amounts of other petroleum products.
- Mexico** Starting from January 2018, reporting of LPG imports and deliveries is based on a more comprehensive coverage of the market.
- Netherlands** As of December 2016, large amounts of fuel oil are reported under other products due to their chemical properties.
- Sweden** There is a break in stocks for Refinery Feedstocks and Additives/Oxygenates between December 2017 and January 2018 reflecting additional information collected by the Swedish administration.

NOTES

- Switzerland There is a break in stocks between December 2017 and January 2018 for refinery feedstocks, as more detailed information of refinery activity is collected by the national administration.
- United States The US Energy Information Administration (EIA) excludes crude oil lease stocks (crude oil stocks held at producing sites) from industry stocks of crude oil.

1. Includes non-crude.

2. Total gasoline includes motor gasoline, jet gasoline and aviation gasoline.

3. Middle distillates includes gas/diesel oil, jet kerosene and other kerosene.

For country specific notes on data, please see the geographical notes in the Appendix.

APPENDIX

This document and any map included herein are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries, and to the name of any territory, city or area.

Geographical Notes

OECD Americas: Canada; Chile; Mexico; USA.

OECD Asia Oceania: Australia; Israel¹; Japan; Korea; New Zealand.

OECD Europe: Austria; Belgium; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Italy; Latvia; Luxembourg; Netherlands; Switzerland; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Turkey; UK.

Other Former Soviet Union: Armenia; Azerbaijan; Belarus; Georgia; Kazakhstan; Kyrgyzstan; Lithuania; Moldova; Russia; Tajikistan; Turkmenistan; Ukraine; Uzbekistan.

Other Former Yugoslavia: Bosnia and Herzegovina; Croatia; Republic of North Macedonia; Montenegro; Serbia.

Cyprus

Note by Turkey:

The information in this document with reference to “Cyprus” relates to the southern part of the Island. There is no single authority representing both Turkish and Greek Cypriot people on the Island. Turkey recognises the Turkish Republic of Northern Cyprus (TRNC). Until a lasting and equitable solution is found within the context of United Nations; Turkey shall preserve its position concerning the “Cyprus issue”.

Note by all the European Union Member States of the OECD and the European Union:

The Republic of Cyprus is recognised by all members of the United Nations with the exception of Turkey. The information in this document relates to the area under the effective control of the Government of the Republic of Cyprus.

Israel

The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights; East Jerusalem and Israeli settlements in the West Bank under the terms of international law.
