## CHART 1

### Gross consumption of natural gas by OECD region

Total OECD indigenous production of natural gas increased by 8.0% in April 2019 compared to April 2018. This increase was largely driven by the OECD Americas (+8.3% y-o-y<sup>1</sup>), where production in the United States grew by 12.2% in April 2019 compared to April 2018. An increase was also observed in OECD Asia Oceania (+29.2% y-o-y), led by Australia (+32.8% y-o-y). Meanwhile, OECD Europe experienced a fall in production of 5.3% year-on-year, mainly due to a decrease in the Netherlands (-14.5% y-o-y).

Total OECD imports (entries)<sup>2</sup> of natural gas grew by 7.8% in April 2019 compared to April 2018, driven by OECD Europe (+12.7% y-o-y), where the Netherlands and France increased their imports by 44.7% and 41.2% respectively. Meanwhile, decreases in imports were observed in both the OECD Americas (-11.5% y-o-y) and OECD Asia Oceania (-0.5% y-o-y). In terms of pipeline and LNG split, lower quantities were imported by pipeline in April 2019 compared to the same month last year (-1.9% y-o-y), while the OECD as a whole saw strong growth in entries of LNG (+45.0% y-o-y). Total OECD imports of LNG from non-OECD countries were 37.9% higher in April 2019 compared to April 2018, while LNG imports from OECD countries increased substantially by 63.6% year-on-year.

Total OECD exports (exits)<sup>2</sup> of natural gas grew by 9.0% in April 2019 compared to April 2018. Growth was observed across all OECD regions, specifically 4.4% in the OECD Americas, 23.0% in OECD Asia Oceania and 8.3% in OECD Europe. This growth was driven by exits of LNG (+50.5% y-o-y), while exits by pipeline remained mostly stable (+0.8% y-o-y).

Total OECD gross consumption of natural gas remained relatively stable in April 2019 (+0.3%) on a year-on-year basis. Growth in OECD Europe (+10.0% y-o-y) and OECD Asia Oceania (+14.3% y-o-y) was offset by declines in the OECD Americas (-6.8% y-o-y), where consumption in the US decreased by 6.6% year-on-year. Overall, total OECD consumption of natural gas grew by 1.2% in the first four months of 2019 compared to the same period of 2018.

1. Year-on-year (y-o-y) change over corresponding month of previous year.

2. Transit volumes are included. Trade amounts include intra-regional trade.

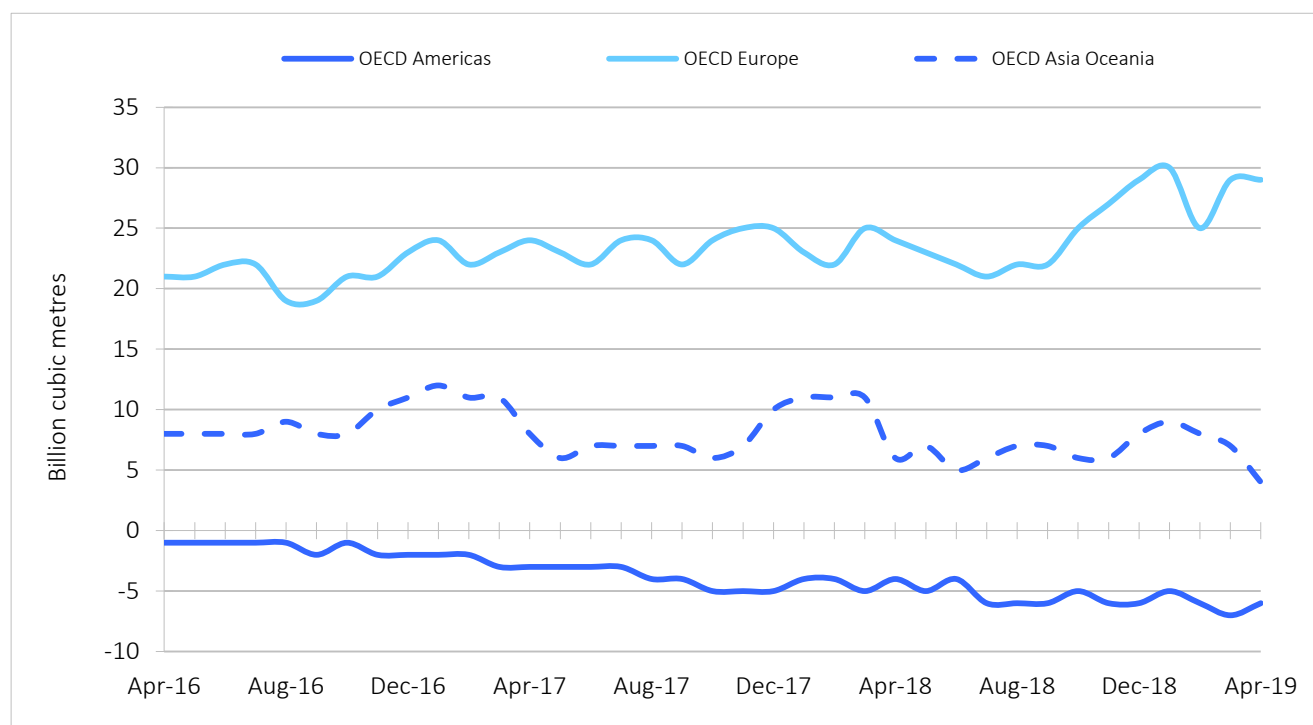

## CHART 2

### Indigenous production of natural gas by OECD region

## CHART 3

### Net trade of natural gas by OECD region<sup>1</sup>

1. Trade amounts include intra-regional trade.

## NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:  
<http://www.iea.org/t&c/termsandconditions/>

### 1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Israel January 2010 to April 2019

### 2) COUNTRY NOTES

A General Note	Starting with January 2011 data, the Imports and Exports no longer represent ultimate origins and destinations but are replaced by Entries and Exits corresponding the amounts that physically crossed the national boundaries of the country.
Australia	The breakdown of export destinations is estimated by the IEA on the basis of OECD imports of natural gas from Australia.
Austria	Most recent data are the best estimates from the Austrian national administration, based on available preliminary data. Data are usually finalised within three months following the first publication.
Belgium	Most recent data on origins of imports and final destinations of exports of LNG are the best estimates from the Belgian Administration based on available preliminary data.
Canada	Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.
Finland	Finland is reporting stock levels as of January 2019. Therefore, there is a break in stock levels between December 2018 and January 2019.
Iceland	There is no natural gas data for Iceland, as there is neither production nor consumption.
Israel	The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law. Information is based on data published by the Ministry of Energy and Water Resources as well as the Central Bureau of Statistics.
Mexico	Observed gross inland deliveries of natural gas from January 2013 onwards are estimated.
Netherlands	Starting with January 2019, more complete trade data is reported based on better information from the GATE terminal. Revisions for historical series are pending. There is a break in stocks between December 2017 and January 2018 due to better compilation methods in the Dutch administration's new data reporting system.
United Kingdom	Beginning with January 2016, exits to the Isle of Man are reported under Non-Specified/Other. Prior to this date, exits to the Isle of Man were included in exits to Ireland.

## APPENDIX

This document and any map included herein are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries, and to the name of any territory, city or area.

### Geographical notes

OECD Americas:	Canada; Chile; Mexico; USA.
OECD Asia Oceania:	Australia; Israel <sup>1</sup> ; Japan; Korea; New Zealand.
OECD Europe:	Austria; Belgium; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Italy; Latvia; Luxembourg; Netherlands; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey; UK.
Israel	The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights; East Jerusalem and Israeli settlements in the West Bank under the terms of international law.

### Tables 2.1 to 2.4: Imports (entries)

Other OECD :	Chile; Czech Republic; Denmark; Estonia; Finland; Greece; Hungary; Iceland; Ireland; Israel <sup>1</sup> ; Italy; Japan; Korea; Latvia; Luxembourg; Mexico; New Zealand; Poland; Portugal; Slovenia; Spain; Sweden; Turkey.
Other import areas :	All countries not specifically mentioned above including non-specified origins.

### Tables 3.1 to 3.4: Imports (entries) of LNG

Other OECD :	Austria; Belgium; Canada; Chile; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Israel <sup>1</sup> ; Italy; Japan; Korea; Latvia; Luxembourg; Mexico; Netherlands; New Zealand; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey; United Kingdom; United States.
Other import areas :	All countries not specifically mentioned above including non-specified origins.

### Tables 4.1 to 4.4: Exports (exits)

Other OECD :	Australia; Chile; Denmark; Estonia; Finland; Greece; Hungary; Iceland; Ireland; Israel; Korea; Latvia; Luxembourg; New Zealand; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey.
Other export areas :	All countries not specifically mentioned above.
Non-specified:	Includes non-specified destinations.

### Tables 5.1 to 5.4: Exports (exits) of LNG

Other OECD :	Australia; Austria; Belgium; Chile; Czech Republic; Denmark; Estonia; Finland; Germany; Hungary; Iceland; Ireland; Israel; Latvia; Luxembourg; Mexico; New Zealand; Norway; Poland; Slovak Republic; Slovenia; Switzerland; Turkey.
Other export areas :	All countries not specifically mentioned above.
Non-specified:	Includes non-specified destinations.
