CHART 1

Gross consumption of natural gas by OECD region

Total OECD indigenous production of natural gas decreased slightly in March 2017 compared to March 2016 (-1.3%). Production declined both in the OECD Americas (-1.6% y-o-y¹) and in OECD Europe (-2.8% y-o-y). On the other hand OECD Asia Oceania recorded increased production on the back of Australian production levels (+4.0% y-o-y). Overall however, in the first quarter of 2017 total OECD production of natural gas decreased by 2.2% compared to the same quarter of 2016.

Total OECD imports (entries)² of natural gas increased marginally in March 2017 compared to March 2016 (+0.7%). Declines in import levels in OECD Europe (-0.8% y-o-y) and Asia Oceania (-1.7% y-o-y) in March 2017 were tempered by a strong increase in the OECD Americas (+12.5% y-o-y). Within the OECD Americas imports increased strongly year-on-year in the United States (+15.9%), where year-to-date³ imports were also up by 7.2% compared to the same period of 2016.

Total OECD exports (exits)² of natural gas were virtually unchanged year-on-year; however exports were up by 11.9% in the first quarter of 2017 compared to the first quarter of 2016. The increase in exports from the OECD Americas (+28.6% y-o-y) and OECD Asia Oceania (+20.2% y-o-y) were outweighed by the drop in exports in OECD Europe (-10.5% y-o-y). Within the OECD Americas, the highest increase was reported by the United States (+40.0% y-o-y), driven by increased exports of LNG.

Total OECD gross consumption of natural gas overall increased by 1.5% year-on-year in March 2017, though on a year-to-date basis gross consumption decreased slightly (-0.3%). The decline in the OECD Americas during this quarter (-3.3%) was curbed by an increase in gross consumption in OECD Europe (+4.7%), where Turkey in particular saw strong year-to-date growth (+17.4%).

1. Year-on-year (y-o-y) change over corresponding month of previous year.

2. Transit volumes are included. Trade amounts include intra-regional trade.

3. Year-to-date (y-t-d) change over corresponding period (beginning of year to current month) of previous year.

CHART 2

Indigenous production of natural gas by OECD region

CHART 3

Net trade of natural gas by OECD region¹

1. Trade amounts include intra-regional trade.

NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:
<http://www.iea.org/t&c/termsandconditions/>

1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Israel January 2010 to March 2017

2) COUNTRY NOTES

Australia	Prior to July 2015, total exports of natural gas are estimated by the administration, based on annual (July to June) and quarterly data. The breakdown of export destinations is estimated by the IEA on the basis of OECD imports of natural gas from Australia.
Belgium	Most recent data on origins of imports and final destinations of exports of LNG are the best estimates from the Belgian Administration based on available preliminary data.
Canada	There is a break in stocks for natural gas between December 2015 and January 2016. From January 2016 data onwards Statistics Canada is officially publishing data on stock levels. Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.
Iceland	There is no natural gas data for Iceland, as there is neither production nor consumption.
Israel	The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law. Information is based on data published by the Ministry of Energy and Water Resources as well as the Central Bureau of Statistics.
Mexico	Observed gross inland deliveries of natural gas from January 2013 onwards are estimated. Revisions are pending.

Other OECD ¹	406	435	308	-	49	180	308
Total OECD	4 384	3 670	978	236	252	981	978
Other export areas ¹	2 842	2 549	218	240	125	581	218
Non specified	1 592	1 971	366	144	9	529	366
Total exports (exits)	8 818	8 190	1 562	620	386	2 091	1 562

1. For regional breakdown, see Appendix.

x: Not applicable

For country specific notes on data, please see the geographical notes in the Appendix.

APPENDIX

This document and any map included herein are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries, and to the name of any territory, city or area.

Latvia became a member country of the OECD in 2016. For the moment, however, data for Latvia have not been included in OECD totals for the 2016 editions of this publication.

Geographical notes

OECD Americas:	Canada; Chile; Mexico; USA.
