## CHART 1

### Gross consumption of natural gas by OECD region

Total OECD indigenous production of natural gas was 1.4% higher in March 2020 compared to March 2019, despite a steep decrease in OECD Europe (-8.8% y-o-y<sup>1</sup>). The main driver for this decline was the continued decrease in production in the Netherlands (-32.8% y-o-y) due to the production cap and phase out of the Groningen field. In the OECD Americas, production of natural gas was 3.1% higher on a year-on-year basis, driven by the continued growth in the United States (+4.7% y-o-y). In OECD Asia Oceania, production rose by 4.3% in March 2020 compared to the same period last year. Looking at the first quarter of 2020, total OECD production of natural gas increased by 2.7% compared with the same period last year, with production in the OECD Americas on the rise (+4.8% y-t-d<sup>2</sup>) and declines in OECD Europe (-9.3% y-t-d).

Total OECD imports (entries)<sup>3</sup> of natural gas fell by 3.8% in March 2020 compared to the same month last year, led by a decrease in OECD Europe (-5.0% y-o-y), as imports from Norway (-15.8% y-o-y) and Ukraine (-30.4% y-o-y) declined. Imports to the OECD Americas also declined (-8.4% y-o-y), while there was an increase in OECD Asia Oceania (+4.8% y-o-y). In total OECD, LNG imports continued to rise (+5.9% y-o-y), while pipeline imports fell by 7.8% on a year on year basis. In the first quarter of 2020, total OECD imports fell by 4.7%.

Total OECD exports (exits)<sup>3</sup> of natural gas increased by 4.8% in March 2020 on a year-on-year basis, with a large growth seen in the OECD Americas (+14.3% y-o-y) as the United States continued to increase their exports (+33.0 y-o-y). In OECD Asia Oceania exports also increased (+11.6% y-o-y), driven by Australian exports (+11.6% y-o-y). Exports from OECD Europe decreased slightly (-0.6% y-o-y), led by decreases in the Netherlands (-38.9% y-o-y) which were offset by increases in Germany (+15.2% y-o-y). In terms of pipeline and LNG split, exports by pipeline remained relatively stable (+0.3% y-o-y), while LNG exports continued to increase (+21.3% y-o-y). In the first quarter of 2020, total OECD exports rose by 3.7%.

Total OECD gross consumption of natural gas decreased by 3.5% in March 2020 compared to March 2019. A large decrease was observed in the OECD Americas (-6.0% y-o-y), led by a fall in the United States (-6.6% y-o-y). In OECD Europe (+0.2% y-o-y) and OECD Asia Oceania (-0.6% y-o-y) gross consumption remained mostly stable. For the first quarter of 2020, gross consumption in total OECD fell by 3.3%, with decreases in all OECD regions.

1. Year-on-year (y-o-y) change over corresponding month of previous year.

2. Year-to-date (y-t-d) change over corresponding period (beginning of year to current month) of previous year.

3. Transit volumes are included. Trade amounts include intra-regional trade.

## CHART 2

### Indigenous production of natural gas by OECD region

## CHART 3

### Net trade of natural gas by OECD region<sup>1</sup>

1. Trade amounts include intra-regional trade.

## NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:  
<http://www.iea.org/t&c/termsandconditions/>

### 1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Mexico	October 2019 to March 2020
Israel	March 2019 to March 2020

### 2) COUNTRY NOTES

A General Note	Starting with January 2011 data, the Imports and Exports no longer represent ultimate origins and destinations but are replaced by Entries and Exits corresponding the amounts that physically crossed the national boundaries of the country.
Australia	The breakdown of export destinations is estimated by the IEA on the basis of OECD imports of natural gas from Australia.
Austria	Most recent data are the best estimates from the Austrian national administration, based on available preliminary data. Data are usually finalised within three months following the first publication.
Belgium	Most recent data on origins of imports and final destinations of exports of LNG are the best estimates from the Belgian Administration based on available preliminary data.
Canada	Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.
Finland	Finland is reporting stock levels as of January 2019. Therefore, there is a break in stock levels between December 2018 and January 2019.
Iceland	There is no natural gas data for Iceland, as there is neither production nor consumption.
Israel	The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law. Information is based on data published by the Ministry of Energy and Water Resources as well as the Central
Mexico	Observed gross inland deliveries of natural gas from January 2013 onwards are estimated.
Netherlands	Starting with January 2019, more complete trade data is reported based on better information from the GATE terminal. Revisions for historical series are pending.
United Kingdom	Exits to the Isle of Man are reported under Non-specified/Other.  There is a break in stocks between March and April 2019 due to inclusion of stock held at LNG terminals.

## APPENDIX

This document and any map included herein are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries, and to the name of any territory, city or area.

### Geographical notes

OECD Americas:	Canada; Chile; Mexico; USA.
OECD Asia Oceania:	Australia; Israel <sup>1</sup> ; Japan; Korea; New Zealand.
OECD Europe:	Austria; Belgium; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Italy; Latvia; Lithuania; Luxembourg; Netherlands; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey; UK.
Israel	The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights; East Jerusalem and Israeli settlements in the West Bank under the terms of international law.

### Tables 2.1 to 2.4: Imports (entries)

Other OECD :	Chile; Czech Republic; Denmark; Estonia; Finland; Greece; Hungary; Iceland; Ireland; Israel <sup>1</sup> ; Italy; Japan; Korea; Latvia; Lithuania; Luxembourg; Mexico; New Zealand; Poland; Portugal; Slovenia; Spain; Sweden; Turkey.
Other import areas :	All countries not specifically mentioned above including non-specified origins.

### Tables 3.1 to 3.4: Imports (entries) of LNG

Other OECD :	Austria; Belgium; Canada; Chile; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Israel <sup>1</sup> ; Italy; Japan; Korea; Latvia; Lithuania; Luxembourg; Mexico; Netherlands; New Zealand; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey; United Kingdom; United States.
Other import areas :	All countries not specifically mentioned above including non-specified origins.

### Tables 4.1 to 4.4: Exports (exits)

Other OECD :	Australia; Chile; Denmark; Estonia; Finland; Greece; Hungary; Iceland; Ireland; Israel; Korea; Latvia; Lithuania; Luxembourg; New Zealand; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey.
Other export areas :	All countries not specifically mentioned above.
Non-specified:	Includes non-specified destinations.

### Tables 5.1 to 5.4: Exports (exits) of LNG

Other OECD :	Australia; Austria; Belgium; Chile; Czech Republic; Denmark; Estonia; Finland; Germany; Hungary; Iceland; Ireland; Israel; Latvia; Lithuania; Luxembourg; Mexico; New Zealand; Norway; Poland; Slovak Republic; Slovenia; Switzerland; Turkey.
Other export areas :	All countries not specifically mentioned above.
Non-specified:	Includes non-specified destinations.
