Monthly oil price statistics

Next release: 11 August 2017

TABLE OF CONTENTS

		Page	
Charts	1	<i>Latest monthly crude oil and oil product price changes in IEA countries</i>	3
	2	<i>IEA members crude oil import costs</i>	4
	3	<i>End-use prices for selected oil products</i>	4
	4	<i>Regional weights for average end-use prices</i>	4
	5	<i>End-use prices for selected oil products - by geographical groupings</i>	5
	6	<i>US dollar exchange rate indices (2014=100)</i>	5
Tables	1	<i>Average crude oil import costs</i>	6
	2	<i>Average end-use total and ex-tax prices for selected oil products - latest month</i>	7
	3	<i>Average end-use prices for selected oil products</i>	8
	4	<i>Average end-use taxes for selected oil products</i>	9

NOTES

Abbreviations

cif *cost of insurance and freight included*

Sources

- Crude oil import costs are derived from the IEA's monthly survey of its member countries.*
- Monthly oil products prices and taxes have been developed by the IEA Secretariat using data extracted from the following sources, supplemented by tax information supplied by national agencies:*
Canada - Natural Resources Canada
France, Germany, Italy, Spain and United Kingdom - European Commission's Directorate-General for Energy and the German Federal Ministry for Economic Affairs and Energy
Japan - Ministry for Economy, Trade and Industry's Agency for Natural Resources and United States - US Energy Information Administration, US Bureau of Labour Statistics
The IEA Secretariat thanks all agencies concerned.

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:
<http://www.iea.org/t&c/termsandconditions/>

KEY TRENDS

- Overall crude oil imports costs for IEA countries decreased in April 2017 for the second consecutive month, falling below the 50 USD/bbl threshold for the first time in 2017. Nevertheless, import costs in April 2017 were more than 34% higher than the levels seen in the same month of 2016.
- Automotive diesel prices fell consistently by around 2% between May and June 2017, but with smaller falls of around 1% occurring in Japan and the United Kingdom. These two countries also saw smaller falls in the price of gasoline, while decreases of around 2% were common in other countries, rising to 4% in Canada. The high use of gasoline in North America (Chart 3) is reflected in the average price decrease for IEA countries seen between May and June 2017 (Chart 1).
- Domestic heating oil prices in Japan increased more than in other regions during the first half of 2017. In June 2017, prices were 10% higher than in December 2016 and almost 16% higher than in June 2016. In Europe and North America, prices have remained stable or recorded minor decreases during the same period.

Chart 1: Latest monthly crude oil and oil product price changes in IEA countries

1. Volume-weighted average cif cost, reported in US dollars; includes France, Germany, Italy, Spain, UK, Japan, Canada and USA.

2. Unleaded premium (95 RON) for France, Germany, Italy, Spain and the United Kingdom; regular unleaded for Canada, Japan and the United States.

3. Automotive diesel for non-commercial use.

Chart 2: IEA members crude oil import costs¹

Chart 3: End-use prices for selected oil products²

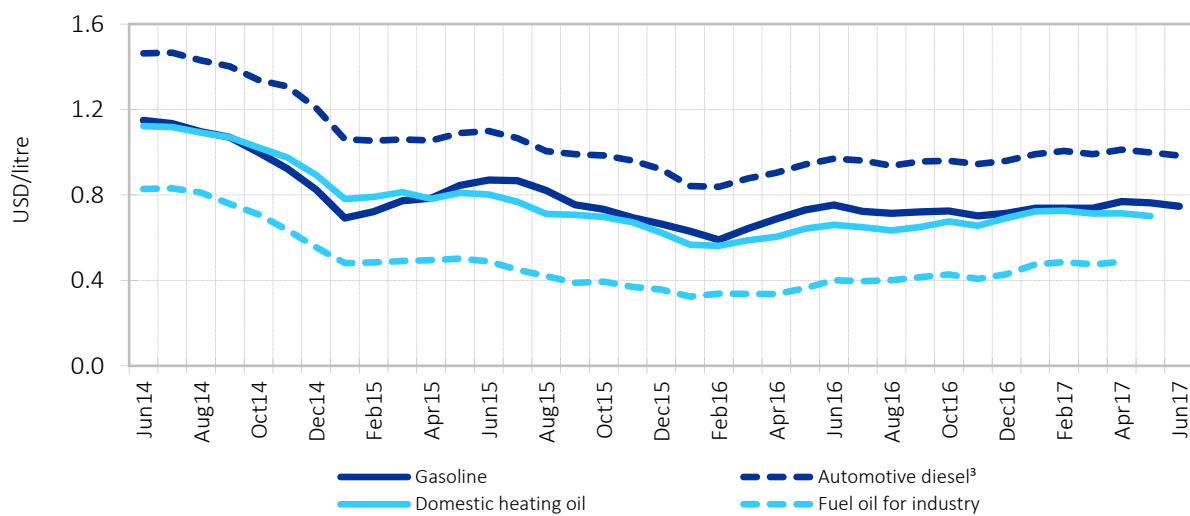

Chart 4: Regional weights for average end-use prices⁴

1. Volume-weighted average cif cost, reported in US dollars; includes France, Germany, Italy, Spain, UK, Japan, Canada and USA.
 2. Consumption-weighted average price including taxes using current exchange rates for France, Germany, Italy, Spain, UK, Japan, Canada and USA.
 3. Automotive diesel for non-commercial use.
 4. Consumption-based regional weights used in average end-use price calculations. The splits shown are average 2016 values.
 5. Includes the United States and Canada.
 6. Includes France, Germany, Italy, Spain and the United Kingdom.

Chart 5: End-use prices¹ for selected oil products

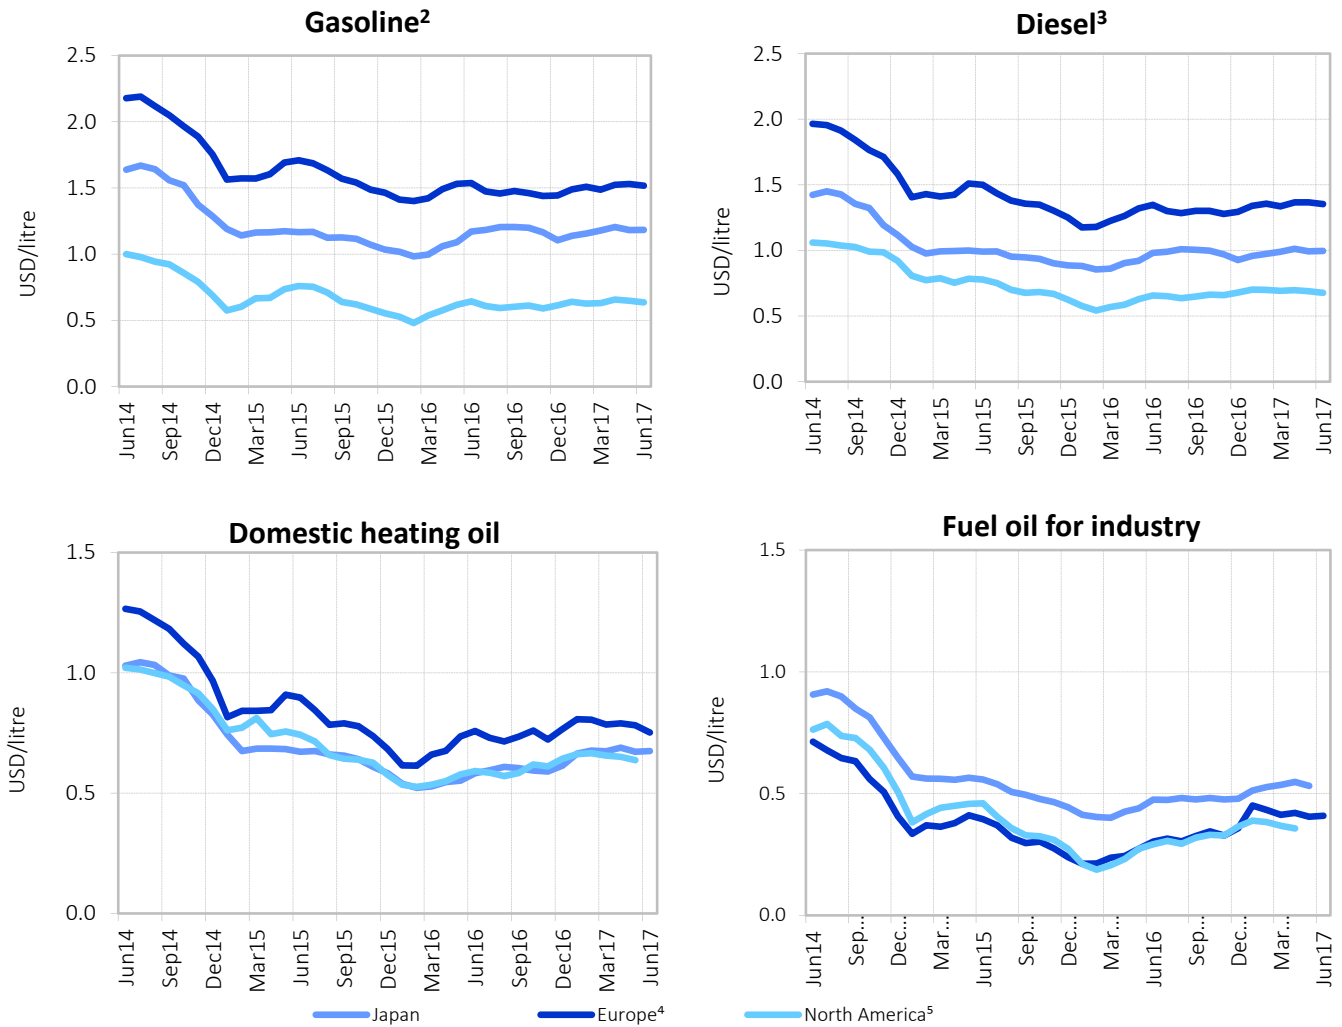

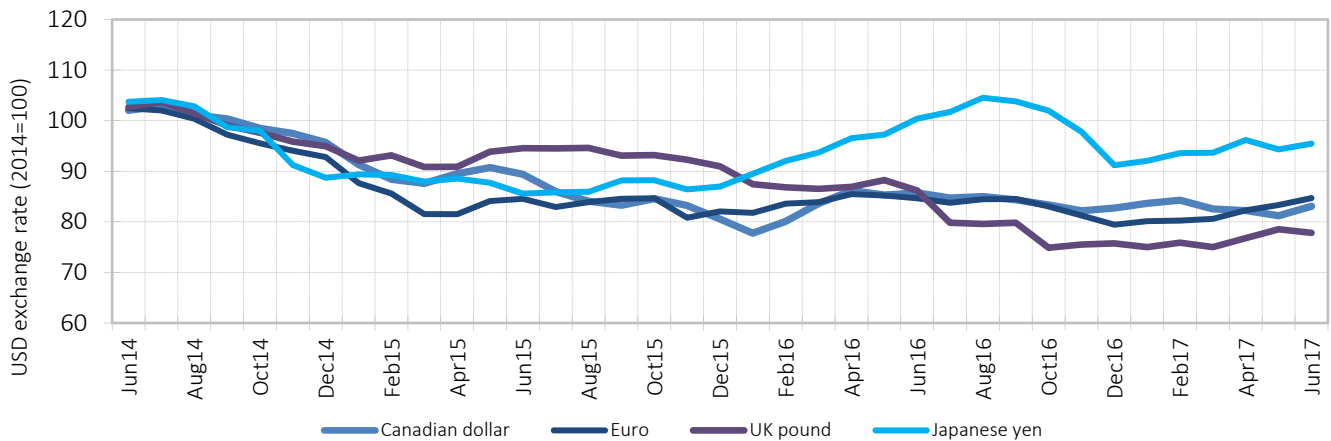

Chart 6: US dollar exchange rate indices (2014=100)⁶

1. Consumption-weighted average price including taxes. For the two most recent months, consumption is estimated using growth rates for the same period of the previous year.
2. Unleaded premium (95 RON) for France, Germany, Italy, Spain and the United Kingdom; regular unleaded for Canada, Japan and the United States.
3. Automotive diesel for non-commercial use.
4. Includes France, Germany, Italy, Spain and the United Kingdom.
5. Includes the United States and Canada.
6. US dollar exchange rate indices are based on exchange rates from the OECD's National Accounts database. An increase in the index indicates a strengthening of the currency compared to US dollars. Such fluctuations create differences in price trends in US dollars compared to those in national currencies.

Table 1: Average crude oil import costs¹*US dollars per barrel*
