CHART 1

Indigenous production of crude oil, NGL and feedstocks by OECD Region

Total OECD indigenous production of crude oil, NGL and refinery feedstocks decreased by 16.0% in February 2021 compared to February 2020. This trend was observed across all OECD regions and was led by a decline of 17.5% y-o-y¹ in the OECD Americas, where output in the United States fell by 24.3% y-o-y due to cold temperatures which affected much of the country, particularly Texas. Production in OECD Europe dropped by 6.6% y-o-y in February 2021, reflecting a decline in production in the United Kingdom (-16.1% y-o-y) due to refinery maintenance and a drop-off in drilling levels. Although lower in absolute terms, OECD Asia Oceania also experienced production declines (-8.4% y-o-y). Overall, total OECD production fell by 10.8% y-t-d².

Total OECD refinery gross output of total products decreased by 17.8% on a year-on-year basis in February 2021. This decline was driven by fall in outputs of gas/diesel oil (-17.7% y-o-y), total gasoline (-18.0% y-o-y) and total kerosene (-40.4% y-o-y). This pattern was observed across all OECD regions and products, with the exception of residual fuel oil, which experienced an increased output in the OECD Americas (+26.1% y-o-y). Overall, total OECD refinery gross output declined by 15.0% on a year-to-date basis.

Total OECD net deliveries of total products decreased by 15.5% in February 2021 compared to February 2020, mainly due to decreases in net deliveries of total gasoline (-16.9% y-o-y) and total kerosene (-41.4% y-o-y). This persistent trend had two exceptions, as net deliveries of residual fuel oil increased (+15.5% y-o-y) due to increases in the OECD Americas and OECD Oceania, and naphtha (+0.5% y-o-y) experienced growing demand in OECD Europe. The most pronounced drops in net deliveries of total products were observed in the United States (-15.4% y-o-y), Canada (-30.6% y-o-y) and Germany (-24.0% y-o-y).

Total OECD oil stock levels on national territory decreased by 6546 kt in February 2021 compared to closing stock levels in January 2021, and closed at 544 million metric tons. Stock draws were observed across all OECD regions, particularly in OECD Europe (-3868 kt), followed by the OECD Americas (-2489 kt). For total OECD, stock draws were observed for total products (-6905 kt), while crude oil, NGL and refinery feedstocks experienced a small overall stock build (+359 kt), mostly due to increased stocks in the United States (+2602 kt).

¹ Year-on-year (y-o-y) change over corresponding month of previous year.

² Year-to-date (y-t-d) change over corresponding period (beginning of year to current month) of previous year.

OECD oil deliveries by main product group

NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:

<http://www.iea.org/t&c/termsandconditions/>

1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Greece	February 2021
Israel	January 2010 to February 2021
Mexico	February 2021

2) COUNTRY NOTES

Austria	Most recent data are the best estimates from the Austrian national administration, based on available preliminary data. Data are usually finalised within three months following the first publication.
Canada	<p>As of January 2019, Canadian data includes outputs of secondary products from bitumen upgraders. These are reported under "from other sources" under other hydrocarbons, and in "primary product receipts" for refinery gas, gas/diesel oil and petroleum coke.</p> <p>There is a break in series between December 2018 and January 2019 as the Canadian Administration launched a new Monthly Refined Petroleum Products survey in the beginning of 2019. The survey includes greater coverage of all products.</p> <p>The Canadian Administration includes condensates and pentanes plus under crude oil.</p> <p>Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.</p>
Chile	The most recent data on inland deliveries for Chile are preliminary. This data are updated within two months following the first publication.
Finland	Starting from August 2019, information on international marine bunkers are not available but included in the "Gross inland deliveries obs." of total fuel oil and gas/diesel due to confidentiality reasons.
France	French data includes the overseas departments (French Guiana, Guadeloupe, Martinique, Mayotte and Reunion).
Israel	<p>The stocks level information is not available at this time.</p> <p>Petroleum coke is included by Israeli Administration in the amounts of other petroleum products.</p> <p>The trade breakdown information is not available at this time.</p> <p>Information is based on data published by the Ministry of Energy and Water Resources as well as the Central Bureau of Statistics.</p> <p>The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law.</p>

NOTES

- Mexico Starting from January 2018, reporting of LPG imports and deliveries is based on a more comprehensive coverage of the market.
Data from October 2019 onwards is preliminary.
- Sweden Due to methodological changes, there is a break in stocks for additives/oxygenates between December 2019 and January 2020.
- United States The US Energy Information Administration (EIA) excludes crude oil lease stocks (crude oil stocks held at producing sites) from industry stocks of crude oil.

1. Percentage change over corresponding month of previous year.

2. Percentage change over corresponding period (beginning of year to current month) of previous year.

3. Total gasoline includes motor gasoline, jet gasoline and aviation gasoline.

4. Total kerosene includes jet kerosene and other kerosene.

For country specific notes on data, please see the geographical notes in the Appendix. Trade amounts include intra-regional trade.

1. Includes non-crude.

2. Total gasoline includes motor gasoline, jet gasoline and aviation gasoline.

3. Middle distillates includes gas/diesel oil, jet kerosene and other kerosene.

For country specific notes on data, please see the geographical notes in the Appendix.

APPENDIX

This document and any map included herein are without prejudice to the status of or sovereignty over any territory; to the delimitation of international frontiers and boundaries; and to the name of any territory; city or area.

Geographical Notes

OECD Americas:	Canada; Chile; Mexico; USA.
OECD Asia Oceania:	Australia; Israel ¹ ; Japan; Korea; New Zealand.
OECD Europe:	Austria; Belgium; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Italy; Latvia; Lithuania; Luxembourg; Netherlands; Switzerland; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Turkey; UK.
Other Former Soviet Union:	Armenia; Azerbaijan; Belarus; Georgia; Kazakhstan; Kyrgyzstan; Moldova; Russia; Tajikistan; Turkmenistan; Ukraine; Uzbekistan.
Cyprus	<i>Note by Turkey:</i> The information in this document with reference to “Cyprus” relates to the southern part of the Island. There is no single authority representing both Turkish and Greek Cypriot people on the Island. Turkey recognises the Turkish Republic of Northern Cyprus (TRNC). Until a lasting and equitable solution is found within the context of United Nations; Turkey shall preserve its position concerning the “Cyprus issue”. <i>Note by all the European Union Member States of the OECD and the European Union:</i> The Republic of Cyprus is recognised by all members of the United Nations with the exception of Turkey. The information in this document relates to the area under the effective control of the Government of the Republic of Cyprus.
Israel	The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights; East Jerusalem and Israeli settlements in the West Bank under the terms of international law.
