## CHART 1

### Gross consumption of natural gas by OECD region

OECD indigenous production of natural gas increased by 2.6% in June 2017 compared with June 2016. The increase in production was driven by OECD Asia Oceania (+22.5% y-o-y<sup>1</sup>), specifically in Australia where production increased by 27.7% year-on-year. Production of natural gas only increased marginally in other OECD areas, by 0.7% y-o-y in the OECD Americas and 0.5% y-o-y on OECD Europe. OECD Europe grew in part thanks to new fields in the North Sea coming online this year, like Cygnus in the UK. This growth however was tempered by the expansion of production caps in the Dutch field of Groningen as well as the usual seasonal maintenance. Overall, indigenous production of natural gas decreased slightly, by 0.4%, in the first half of 2017 compared to the first half of 2016.

Total OECD imports (entries)<sup>2</sup> of natural gas increased by 3.1% in June 2017 compared to June 2016, driven by growth in all OECD regions. The rise was led by OECD Europe, where imports in June 2017 increased by 2.7% y-o-y, particularly in Belgium (+20.9% y-o-y), Italy (+8.5% y-o-y) and Turkey (+13.8% y-o-y). Growth in Belgium was despite the closure of the interconnector pipeline with the UK during half of the month for routine annual maintenance.

Total OECD exports (exits)<sup>2</sup> of natural gas were 11.5% higher in the first six months of 2017 compared to the same period of 2016. This growth was driven by the OECD Americas and OECD Asia Oceania, where natural gas exports increased by 22.5% y-t-d<sup>3</sup> and 36.5% y-t-d, respectively. Australia led the strong growth rate in OECD Asia Oceania throughout this period due to above nameplate capacity production at the Australia Pacific LNG project. In the OECD Americas, the US saw exports increase by over 40% over the same period.

Total OECD gross consumption of natural gas decreased by 4.3% in June 2017 compared to June 2016. Falls in gross consumption in the OECD Americas (-6.8% y-o-y) and OECD Asia Oceania (-13.2% y-o-y) were slightly countered by growth in OECD Europe (+8.0% y-o-y). Overall, total OECD gross consumption of natural gas decreased slightly in the first six months of 2017 compared to the same period last year (-0.8% y-t-d).

1. Year-on-year (y-o-y) change over corresponding month of previous year.
2. Transit volumes are included. Trade amounts include intra-regional trade.
3. Year-to-date (y-t-d) change over corresponding period (beginning of year to current month) of previous year.

## CHART 2

Indigenous production of natural gas by OECD region

## CHART 3

Net trade of natural gas by OECD region<sup>1</sup>

1. Trade amounts include intra-regional trade.

## NOTES

Please note that all IEA data are subject to the following Terms and Conditions found on the IEA's website:  
<http://www.iea.org/t&c/termsandconditions/>

### 1) ESTIMATED DATA

Due to the absence of official data, the following data have been estimated:

Israel January 2010 to June 2017

### 2) COUNTRY NOTES

- Australia Prior to July 2015, total exports of natural gas are estimated by the administration, based on annual (July to June) and quarterly data. The breakdown of export destinations is estimated by the IEA on the basis of OECD imports of natural gas from Australia.
- Belgium Most recent data on origins of imports and final destinations of exports of LNG are the best estimates from the Belgian Administration based on available preliminary data.
- Canada There is a break in stocks for natural gas between December 2015 and January 2016. From January 2016 data onwards Statistics Canada is officially publishing data on stock levels.  
 Data for Canada are submitted by the Department of Natural Resources (Natural Resources Canada, or NRCan), based on actual and preliminary data from Canada's national statistical agency (Statistics Canada) and various other sources. In cases where data from these sources are unavailable, estimates are conducted by NRCan, based on information available at the time, including alternative sources. Data are usually finalised within three months of the first publication. An important source for any differences between data published by Statistics Canada and data published by the IEA is data estimated by NRCan or the IEA Secretariat.
- Iceland There is no natural gas data for Iceland, as there is neither production nor consumption.
- Israel The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law.  
 Information is based on data published by the Ministry of Energy and Water Resources as well as the Central Bureau of Statistics.
- Mexico Observed gross inland deliveries of natural gas from January 2013 onwards are estimated. Revisions are pending.
- United Kingdom Beginning with January 2016, exits to the Isle of Man are reported under Non-Specified/Other. Prior to this date, exits to the Isle of Man were included in exits to Ireland.

## APPENDIX

This document and any map included herein are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries, and to the name of any territory, city or area.

### Geographical notes

OECD Americas:	Canada; Chile; Mexico; USA.
OECD Asia Oceania:	Australia; Israel <sup>1</sup> ; Japan; Korea; New Zealand.
OECD Europe:	Austria; Belgium; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Italy; Latvia; Luxembourg; Netherlands; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey; UK.
Israel	The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights; East Jerusalem and Israeli settlements in the West Bank under the terms of international law.

### Tables 2.1 to 2.4: Imports (entries)

Other OECD :	Chile; Czech Republic; Denmark; Estonia; Finland; Greece; Hungary; Iceland; Ireland; Israel <sup>1</sup> ; Italy; Japan; Korea; Latvia; Luxembourg; Mexico; New Zealand; Poland; Portugal; Slovenia; Spain; Sweden; Turkey.
Other import areas :	All countries not specifically mentioned above including non-specified origins.

### Tables 3.1 to 3.4: Imports (entries) of LNG

Other OECD :	Austria; Belgium; Canada; Chile; Czech Republic; Denmark; Estonia; Finland; France; Germany; Greece; Hungary; Iceland; Ireland; Israel <sup>1</sup> ; Italy; Japan; Korea; Latvia; Luxembourg; Mexico; Netherlands; New Zealand; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey; United Kingdom; United States.
Other import areas :	All countries not specifically mentioned above including non-specified origins.

### Tables 4.1 to 4.4: Exports (exits)

Other OECD :	Australia; Chile; Denmark; Estonia; Finland; Greece; Hungary; Iceland; Ireland; Israel; Korea; Latvia; Luxembourg; New Zealand; Norway; Poland; Portugal; Slovak Republic; Slovenia; Spain; Sweden; Switzerland; Turkey.
Other export areas :	All countries not specifically mentioned above.
Non-specified:	Includes non-specified destinations.

### Tables 5.1 to 5.4: Exports (exits) of LNG

Other OECD :	Australia; Austria; Belgium; Chile; Czech Republic; Denmark; Estonia; Finland; Germany; Hungary; Iceland; Ireland; Israel; Latvia; Luxembourg; Mexico; New Zealand; Norway; Poland; Slovak Republic; Slovenia; Switzerland; Turkey.
Other export areas :	All countries not specifically mentioned above.
Non-specified:	Includes non-specified destinations.
